Did you see the aeroplane?
Pay your taxes and make the tax collector's lot easier.

The town taxes will be ready for collection in a few days.

COURT has not been of much interest to outsiders this week.

JUSTICE Harlan, of the United States Supreme court died on last Friday.

The Chinese are now trying to "get in line" by stirring up a kind of rebellion.

It's a dangerous piece of business for little boys to be allowed to go hunting with shot guns.

Of course there is no danger in little boys going hunting until they have happened to an accident.

JUDSON HARMON, according to reports, spoke to an exceedingly large crowd at Raleigh Tuesday.

The world series of ball games between New York and Philadelphia is attracting wide interest.

Will the people of Louisburg continue to be satisfied with the condition of the cemetery to remain as it is?

We notice that the Atlanta Georgian suggests that the next Democratic presidential ticket be Wilson and Clark.

A WHITE man named Jones attempted assault on Ethel, the little 11 year old daughter, of W. D. Rice at Rocky Mount Monday.

With the parcels post will come fewer local merchants and less real values. In the face of these facts it will necessarily mean harder times for the masses.

It is strange to see how anxious some people are to see things published about other people and at the same time are so easy to get mad when the same things are said about them.

The town commissioners seem to have lost sight of the fact that to establish a market house for Louisburg would mean a revenue for the town as well as a protection to the citizens.

The people of Franklin county should bear in mind that there is still plenty of time in which to select their candidate for President and all other elective offices. Don't be too hasty to tie yourself up too early.

The special train conveying President Taft on his Western trip came near being blown up by dynamite at Naples, Cal. The explosive was placed upon a bridge but was found before the train reached the scene.

The establishment of the Parcel's post by the government will mean the advancement of the mail order business to the detriment of the local merchants. If it was possible that it would be anything saved to the people who would patronize these houses there would be something in its favor, but as there would be absolutely nothing to gain, except cheap transportation rates, every body should express themselves openly against the measure.

W. O. Saunders, editor of the—we've forgotten the name of the paper—at Elizabeth City, was convicted in the Federal court there of using the mail for the dissemination of indecent literature. In imposing a fine of \$100 Judge Conner lectured the editor and warned him that to commit the offense again would mean severe punishment, and added "that he hoped that the people of this section would not endure a repetition of this offense against decency."—Greenville Reflector.

This fine statement by United States Judge Jeter C. Pritchard, of Asheville, is going the rounds: "That you cannot by law make an individual a good man in one sense of the word is true; but that you can by law remove such evil agencies as bar-rooms, and thereby minimize the temptations that beset young men is absolutely true. Experience teaches us that, were it not for the law it would be impossible to maintain our government and to protect the lives and property of our people. This has been so in all ages, and with all nations, and the time will never come when any government can exist without the enactment of suitable laws for the enforcement of its decrees and the maintenance of law and order."—Biblical Recorder.

TO PROTEST AGAINST TOBACCO TRUST PLANS.

Mr. T. W. Bickett, Attorney General, left this afternoon for New York, where tomorrow he will hold a conference with Mr. J. Fraser Lyon, Attorney General of South Carolina, and Mr. Samuel W. Williams, Attorney General of Virginia, with regard to the plan of reorganization of the American Tobacco Company under the ruling of the Supreme Court.

Mr. Bickett would not say today that the Attorney General of these States would file a protest, but it is not unlikely that such will be the case. The heads of the legal departments of North Carolina, South Carolina and Virginia will scrutinize carefully the plans of reorganization, and if they do not meet with approval, the officials will be heard from.

It is believed by many that the plans are not in accordance with the order of the court, and it is the logical conclusion that the Attorney Generals of three large tobacco-growing States do not think they are.

"We are going to see that the tobacco-growing interests are represented," said Mr. Bickett just before leaving. "They are more deeply interested than anybody else and we will take their part."

Unusual interest attaches to the conference there, because of the fact that this State is a large producer of the leaf and because Durham and Winston-Salem are large manufacturing centres.—Raleigh Times of Wednesday.

BLUE BELLS.

NATURE'S WARNING.

Louisburg People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously.

But nature always warns you. Notice the kidney secretions.

See if the color is unhealthy—

If there are settlements and sediment.

Passages frequent, scanty, painful.

It's time then to use Doan's Kidney Pills.

To ward off Bright's disease or diabetes.

Doan's have done great work in this locality.

A. B. Falkner, 411 Breckenridge St., Henderson, N. C., says: "I have used Doan's Kidney Pills and they have done me a world of good. My kidneys bothered me, especially at night and the kidney secretions were unnatural and filled with sediment. My back ached and constant pains in my kidneys kept me in misery. A few months ago I began taking Doan's Kidney Pills and I found them to be just what I needed. They relieved the lameness and soreness in my back and helped me in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
