**Senator Simmons will speak in Louisburg October 15.**

The Louisburg tobacco market is on a boom.

The trial of Sidna Allen and Wesley Edwards will begin in a few days.

Don't shut out the sunlight, teacher. Flood the room with sunshine; it's Gods best germ destroyer.

The first duty of the first day and of every school day. Look for infection carriers and promptly exclude them.

EVERYBODY will be in Louisburg October 15th—Tuesday in court—to hear Senator F. M. Simmons.

You are invited to hear Senator Simmons speak in Louisburg Tuesday, October 15th, whether you intend to vote for him or not.

FRIDAY and Saturday were two big days for the Louisburg tobacco market. Fridays sale was estimated at about \$10,000.

On account of the lack of water in the standpipe they were unable to use the organ through the services at the Methodist church Sunday.

If the sale of a drink is a violation of the internal revenue law sufficient to require a license, why isn't it a violation of the State prohibition law?

SEN. SIMMONS is being congratulated on all sides for the liberality expressed in regard to the defining of the Democratic ticket. It was not a surprise to those who knew him.

THERE is no doubt but that the ruling of the State Executive Committee is technically right, but we feel that it would be better to be a little more lenient.

ATTORNEY-GENERAL Bickett raises a protest at the strongest action of the executive committee. There is no doubt but that generosity is the best policy.

UNLESS there is something broken it looks that since there has been no electric lights the past two weeks, a sufficiency of water could be kept in the stand pipe to furnish the churches with power enough to run the motor to the organ.

Now since the Kitchin elements have succeeded in having the executive committee to so minutely define the meaning of a Democratic ticket they have lost again in their attempts to get another charge against the party or Mr. Simmons.

**Look to Your Eyes**

The nights are getting longer. The schools are opening. Both old and young will have occasion to use their eyes more and more, especially at night. Artificial lights are more trying to the eyes than day-light.

**Parents and Teachers**

should look well to the eyes of their children. Most eye troubles are acquired or developed in school. Many a so-called "dull and stupid scholar" has a bright mind, but doesn't take to books because of some defects of the eye of which neither he nor his teacher is conscious. Immediate attention would awaken new aspiration; cause him to love his books, possible lead his classes; save him much misery and yourself future regrets.

**IF** Your head aches  
 Your eyes ache  
 Your eyes tire  
 Your eyes burn  
 Your eyes water  
 Your eyes squint  
 Your eyes in any way give you pain  
 Troubled with dizziness, nausea or extreme nervousness and the ordinary remedies fail to effect a permanent cure, the eye are the probable cause of the trouble and nothing but properly fitted glasses will give relief.

Wrong glasses are often worse than no glasses. A misfit will aggravate rather than alleviate his sufferings. Permit none but a qualified specialist to prescribe for his eyes. I make a specialty of examining eyes and fitting glasses.

**MONEY LOST**

A farmer recently suffered a loss of \$1,000 besides the fire loss of his house and contents. The family had gone to town and during a severe thunder storm the house was struck by lightning and was almost completely destroyed. Neighbors came to the rescue and saved some of the furniture but they failed to save a package of money that was hid under some bedding in a closet.
