Look to Your Eyes

The nights are getting longer. The schools are opening. Both old and young will have occasion to use their eyes more and more, especially at night. Artificial lights are more trying to the eyes than day light.

Parents and Teachers

should look well to the eyes of their children. Most eye troubles are acquired or developed in school. Many a so-called "dull and stupid scholar" has a bright mind, but doesn't take to books because of some defects of the eye of which neither he nor his teacher is conscious. Immediate attention would awaken new aspiration; cause him to love his books, possible lead his classes; save him much misery and yourself future regrets.

IF Your head aches
Your eyes ache
Your eyes tire
Your eyes burn
Your eyes water
Your eyes squint
Your eyes in any way give you pain
Troubled with dizziness, nausea or extreme nervousness and the ordinary remedies fail to effect a permanent cure, the eyes are the probable cause of the trouble and nothing but properly fitted glasses will give relief.

Wrong glasses are often worse than no glasses. A mistake will aggravate rather than alleviate his suffering. Permit none but a qualified specialist to prescribe for his eyes glasses.
