

The FARMERS NATIONAL BANK

Louisburg, N. C.

We congratulate the Riverside Warehouse on joining hands with the Farmers National Bank in its work for the promotion of the producer's welfare. You will find Riverside Warehouse and the Farmers National Bank standing firmly on the platform advocated by this bank for the fair dealing and an equal chance for every farmer. We congratulate our friends on the new order of things.

As we have stated once or twice previously, the Farmers National Bank has come because there was a need for its work; although only a little over a year old, our business is about equal to that of any other bank in Franklin County. We are growing daily. Any bank worthy of the name is only a public servant, and such rapid and continued growth indicates that we have proved our bank to be a satisfactory public servant, growth being the sign of good service, and indicating that we manage this institution for the benefit of our customers.

As we have stated before, this bank is here to stay; to serve the public, and to act as a clearing house for Franklin County. It will continue to serve the public and to grow in its usefulness to the public. No part of it has been sold and no part of it will pass from the control of the strong element now back of the bank. You will find us here January 1st, 1914, January 1, 1915, January 1, 1916, and so on, notwithstanding that some of our neighbors are very desirous that we shall be no more. Let us assure you that the statements certain people are passing around are malicious lies.

THE FARMERS NATIONAL BANK

LOUISBURG, N. C.

Under Supervision of the United States Government.
