### Thanksgiving at Justice.

Thursday, November the 27th, was fully observed as a day of thanks in our little town of Justice. As the day dawned, dark clouds shut out the light, and for a while it seemed that our plan might all be in vain, but as the sun rose higher the clouds passed away and the day was before us that will long be remembered by our people.

By ten o'clock a good crowd had gathered at the school building and with our teachers and students all formed in line and marched to the home of Bro. Williams each carrying a package, some small and some large, though there was not any difference to the eye of Bro. Williams, as he opened his heart of thanks making each one feel that they were more than repaid for what they had done.

In the afternoon Ladies of the Betterment Association opened a Bazaar in the school building at one o'clock and the arrangement of the various articles and the elegance of the sales-ladies seemed to make one think they were in a real New York store, so in a short time their entire stock was exhausted and all were ready to enjoy the game of ball.

Prof. Ingram, of Cedar Rock, came over with his team and gave us a game. He has a good team and their playing showed us that although a professor he was up in the base ball world. But they were not any match for our boys as we defeated them two to nothing—it being the best game ever played on our grounds. Everybody enjoyed it from tiny tots to gray headed men. There wasn't any difference in the cheering.

At seven thirty the auditorium was filled with people eager to see what would be next. The first thing on program was a composition on Thanksgiving by Miss Stella Hayes then the play, "Following a Husband's Example" was taken off by some of the students. Also reciting by Miss Nan Hines which was very beautifully done. This was followed by sale of socks. A row of little socks having been arranged on the mantel and as the curtains were drawn there was not one that did not recall memories of childhood and many breathed in a low whisper make me a child again. And never on a Christmas morning was a child more eager to get his stockings than the young men were to get those socks. They were sold under the hammer, prices varying from one dollar to ten dollars and

twenty-five cents. Each sock containing the name of a lady so it was well known that by buying a sock there was a chance of getting a lady free. Last but not least the dining room was thrown open where oysters, cake and pickle were served, everyone declaring that to be the best part of the occasion and proving it by staying until driven home by midnight hours, and declaring it to be the best day ever spent at Justice.

The proceeds of the day amounted to more than a hundred dollars. The Ladies of the Betterment extend thanks to the good people who so liberally contributed and will try to make a day more interesting later.

### Montgomery Ward Dead.

Chicago, Dec. 7.—Montgomery Ward who rose from a day laborer to the presidency of a mail-order house, died today at his residence at Highland Park. He was 70 years old and a multimillionaire.

Death resulted from a complication of diseases, which developed after two falls. About two years ago, Mr. Ward slipped on the running board of an automobile at Pasadena, Cal., and broke one arm and a shoulder blade. These injuries forced him to forego all outdoor amusements. Six weeks ago he fell in his home and fractured his right hip. The kidneys were injured and pneumonia set in.

Mr. Ward was born at Chatham, N. J., February, 17, 1843, the family coming west when he was 8 years old. He advanced himself by his own endeavors until at his death his wealth is reliably estimated at \$15,000,000.

Mr. Ward's long continued and successful efforts to prevent the erection of buildings in Grant park won for him the name of "The Watch Dog of the Lake Front."

### National Guard to Mexico.

Winston-Salem, Dec. 7.—That the North Carolina National Guard may see active service in Mexico within the next 12 months is the opinion of local officers, who have received the past week instruction from the Adjutant General to see that every member of the local company is equipped with identification tags such as are used in time of service and also to see that the full equipment of the company is in good serviceable condition.

For some time the local militiamen have been anticipating active service should war come with Mexico and the past week's developments have

heightened the opinion that within the next few months the local company will join with the State troops in action.

### Standing in your own Light if you do not use

### King of Externals for Colds Croup and Pneumonia.

I have found Gowan's so efficient and reliable a preparation in all cases where a powerful counter-irritant is needed, and also possessing such de-odorizing properties that I cannot resist the impulse to endorse it as far and away superior to any preparation of its class that has come under my observation. I do not think any household can afford to be without it and I shall most certainly advise all druggists of my acquaintance to stock up with it.
