

CATARRH OF THE PHARYNX.

Clearing out your throat every day, all day. That is what you have been doing for months. Possibly years. A little mucus covers the pharynx. If you were to go to a doctor he would tell you that you have pharyngitis. If you were to look into your own throat you would find just back of the soft palate a red, lumpy, granular appearance of the back part of the throat. Pharyngitis the doctors call it.

Perhaps he would call it follicular pharyngitis. It causes you constant annoyance. You are always making slight disturbances when seated in an audience. Can't hold your throat still. Stringy mucus bothers you. Worse in the morning.

A-hem! A-hem! A-hem! That is the way you are going nearly all day. Sometimes in the night when you wake up. You ought to gargle your throat with salt water every morning. Cold salt water. That clears out the throat perfectly and makes it ready for treatment.

Peruna is the treatment. Begin with a teaspoonful before each meal and at bedtime. Try it for a week. You will be convinced. Of course, Peruna will not entirely relieve you in a week. That is too much to expect of any remedy. But it will benefit you so much you will be convinced. Yes, it will. It has done this many times.

Follicular pharyngitis. Big words. Almost as bad as the disease. But if you take Peruna for one month regularly, you may forget that you ever had such a disease. Then you will have a perfect right to forget the big words too.

People who object to liquid medicines can now obtain Peruna Tablets.

TO NORTH CAROLINA.

(Dedicated by the Author to Hon. Josephus, Secretary of the Navy.)
Here's to the land of the long-leaf and bright yellow pine,
Where the tree grow up so fast, so tall and so fine,
That though the saw mill and the axe may have full sway;
Yet another new forest is born in a day.

Land of peanuts, cotton, and the bright yellow weed;
Persimmons, potatoes and everything for feed,
Berries, melons and—our cornucopia will show
That everything raised this side the tropics, we grow.

The fish of the sea pay tribute on sound and stream,
The fowls from the North comes with the frosts' first bright gleam,
Pond and creek abound with game-speckle and the bass,
In field and meadow, Bob White nestles in the grass.

A land of green plenty, where the pastures are green,
And the fat flocks besides the still waters are seen,
And the best of all, if you will just stop to think!
We have grape-juice, buttermilk and water to drink.

Here's to the land where the mountains are the highest,
Here's to the land where the sea-shore is the longest,
Here's to the land where the maidens are the fairest,
Here's to the North State where the men are the bravest.

Peopled by a bold race that must be free,
It is her's not just to seem, but rather to be.
Her tokens of pleasure are her working-mans tools,
Her music marks progress in the bells of her schools.

The hum of her wheels drowns the echo of the sea;
The scream of her whistles, the Wood-thrush's loud, sweet plea,
The power of her waters, and her mines of gold,
Will sooner or later bring her riches untold.

Her hard-woods and minerals are known far and wide;
But wrapt in her bosom are rare treasures beside,
The unfolding of this wealth will come in a day;
The keen-eyed capitalist is looking this way.

Her people, the same that first landed on her coast;
Holding the faith of the fathers has been her boast,
Her temples of worship adorn hamlet and town,
Where the gospel is preached and high critics held down.

The Down Homer may roam, but he will surely find
That his land is now leaving all others behind,
Here's to the land of long-leaf and bright yellow pine,
Where the Mocking-bird sings in the Scuppernon vine.
