Maj, Peterson is being tried in Raleigh this week on a charge of em bezzling the State out of \$7,600.

Among those we have heard spoken of for the House of Representatives Louisburg.

While the government advocates raising chickens to assist in conserving the meat supply it does not advocate turning them out to tear up a neighbor's war garden.

Its our ignorance, no doubt, but we can'tsee the sense in giving the names of the killed and wounded in France without their rank and home address. Since there are more than one person by the same name it is confusing and trying, especially to those parents and friends having relatives serving at the front. We think it would be much better for the department to not give line at all, rather than give it par. tially

The official reports show that the Western farmers are the largest buy, ers of War Saving Certificates. There is no shrewder or independent class of people in the world than the farshare of this magnificient investment.

The daylight Saving law presed by is to Congress becomes effective at 2 a. m. en's Sunday Moning, March 31. That forw means at this time all the clocks in Was the United States are to be run up of the one hour. The object is to get all tee. one hour. The object is to get all tee. work started one hour earlier, and daylight instead of part of night to perform the duties of life. Congress evidently has seen a great deal more than the average student of human nature to think that just a little ma-nipulation of the hands of a clock is going to make the people shake off the comforts of a good morning rap and arise earlier than they have been hunched here today. If the vessel and arise earlier than they have been especially when it is such a burden-for so many to rise before the midday meal. we are interested to Any way see, just how it is going to work out.

The Thousand Dollar Club proposi-tion interests many farmers, writes one chairman to State Headquarters. He says that many farmers are being neglected on the War Savings Stamp plan of investing their money, and that many would be glad to loan the Government their money if the facts and advantages are made known to them. Farmers will surprise you more than any other class of people, he says. They will often take a thousand dollars in War Savings Stamps when you think they couldn't take a hundred. It pays you to pay them your respects as regards this proposition. Furthermore, he says, farmers are more patriotic than you sometimes think. This war is weighing heavy on their hearts and they are willing to do their part in bringing it to an end
