

**Both Political Parties Endorse Amendment.**

(Extract from the State Platform of the Democratic Party of North Carolina.)  
The following is quoted from the Democratic State Platform adopted at its convention in Raleigh:  
Education was never more necessary than in this time of jeopardized civilization for preparation of our children for the larger responsibilities and duties, for the fiercer competition for the harder tasks for reconstruction and readjustment that are sure to follow this world-wide war, and for preservation of all that our boys at the front and their allies are fighting and dying to win.

That the Democratic Party renews its pledge to the fullest support of the public schools, pledges its support to the constitutional amendment for a six months school term, and calls upon all patriotic citizens of the State irrespective of party affiliation to vote for this amendment as a patriotic duty in the present and future generations of North Carolina children.

(Extract from the State Platform of the Republican Party of North Carolina.)

The following is quoted from the Republican State Platform adopted at its convention in Greensboro:  
The advantages of education were never more necessary than now in the preparation of the youth of our country for the larger duties and responsibilities and the fiercer competition in all the activities of life that are sure to follow this world-wide war. The Republican Party of North Carolina, therefore, heartily favors the amendment to the constitution of this State securing a six months school term in every school district of the state.

**THE FARMERS NATIONAL BANK**

LOUISBURG, N. C.

**The Year of Thrift**

This year marks the anniversary of the establishment of the first savings bank in the United States.

In commemoration of this centennial, bankers' organizations are speeding up the thrift movement.

Strangely enough, this effort comes at a time when national progress in commerce and industry depend on the people's power to save.

No longer can America draw on the savings of the thrifty people of Europe for capital with which to develop its resources.

From now on the United States must produce its own capital.

An account in a savings bank insures national progress and your own independence.
