

Increased Demand for Cotton.

Attention is called to the following statement by Mr. Charles J. Brand, Chairman of the Committee on Cotton Distribution and Chief of the Bureau of Markets of the Department of Agriculture, on November 14, announcing the Committee's action regarding the suspension of speculative "short" selling of cotton on the exchanges. It will be noted that the Cotton Committee, reflecting the views of the Department of Agriculture as well as of the cotton experts constituting the committee, confidently expect an increase in volume of exports and consumption of cotton.

"The signing of the armistice brings us suddenly to the threshold of the reconstruction era. Pending developments are of the utmost importance to the entire cotton world.

"The consequences of unfounded rumors that tend to promote vicious speculative activity and cause unjustified demoralization must be avoided as far as possible. In order that the harmful violent price fluctuations may be checked the Committee on Cotton Distribution has ordered all speculative short selling on the New York and New Orleans Cotton Exchanges stopped, and, to make this order thoroughly effective, has required that no selling orders except in liquidation of long contracts be executed from any foreign country.

"The stoppage of sinkings by U-boats the monthly increase in new ship tonnage and the releasing of ships now engaged in supplying the fleets of the Allies, together with the freeing of space previously used in sending munitions to Europe, will mean a large increase in available tonnage for cotton exports.

"The world's requirements of cotton to meet its increasing demands for clothing will henceforth be on a continuously ascending scale. Based on reports to this committee from the various foreign countries, we estimate their requirements and probable exports of cotton under present conditions to be over two million bales in excess of last season's takings.

"Europe is almost denuded of cotton and cotton goods. The potential buying power of the world which will be aided and hastened by the establishment of the necessary credits will quickly assert itself."

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR, DOUBLE ITS BEAUTY

Try this! Hair gets thick, glossy, wavy and beautiful at once.

Immediate?—yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose

hair has been neglected or is scraggy, faded, dry brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents.
