Bankhead National Highway
Birmingham, Ala., Feb. 8.—(Special)—Renewed and active interest in the BANKHEAD NATIONAL HIGHWAY which starts at Washington and traverses the States of Virginia, N. & S. Carolina, Georgia, Alabama, Mississippi, Tennessee, Arkansas, Texas, Oklahoma, New Mexico, Arizona and California is being aroused. Six of the above states through which the Bankhead Highway traverses, legislatures are now in session. Resolutions designating the BANKHEAD NATIONAL HIGHWAY as an inter-

state Highway through these several states have been adopted or are now favorably pending in these Legislatures naming the Bankhead National Highway as an interstate highway and are joining in memorializing the Federal Government to designate said road as a National Highway and to cooperate with the states in its construction and maintenance.
J. A. Rountree, Secretary of the BANKHEAD NATIONAL HIGHWAY is in correspondence with the Vice-President and Directors in the various states urging them to secure the pas-

sage of a resolution by the State Legislatures for the establishment of this highway. This resolution memorializes Congress to speedily cooperate in building and maintaining this road and urges upon President Wilson to take Federal action in regard to the same. The Alabama Legislature has passed this resolution, which is similar in all of the states except designating the towns and cities through which the road traverses. It reads as follows:

Be It Resolved by the Alabama Senate, the House Concurring that:

Whereas, the BANKHEAD NATIONAL HIGHWAY ASSOCIATION has mapped a continuous highway from Washington to Los Angeles, through Virginia, N. & S. Carolina, Georgia, Alabama, Tennessee, Arkansas and California, which they have designated as the BANKHEAD NATIONAL HIGHWAY in recognition of the thirty-two years of service in the Congress of the United States of the Senior Senator from Alabama and of his distinguished advocacy of the Federal improvement of the highways; and

Whereas: The route has been located after inspection and approval by a representative of the United States Bureau of Public Roads and an impartial Pathfinding Committee and has the approval of the Highway Commission of this State; and

Whereas: The Bankhead National Highway Association has requested that said road be made an interstate highway and that the several States join in memorializing the Federal Government to designate said road as a National Highway and to cooperate with the States in its construction and maintenance.

Therefore, Be It Resolved: (1) That the State of Alabama hereby join the other States in the establishment of this road as an interstate highway, the route across Alabama being Route No. 2 and 9 as shown on the State Highway Map traversing the cities of Heflin, Anniston, Talladega, Pell City, Birmingham, Jasper, Hamilton, Guin and Sulligent; (2) That the Congress of the United States be and hereby is memorialized to designate the said road as the BANKHEAD NATIONAL HIGHWAY and to aid the States in its construction and maintenance as a National Highway (3) That this action be transmitted to the Governors of the several States and to the several secretaries of State for their consideration and to the President of the United States for Federal action.

PROFESSOR WOOD MAKES STATEMENT

Georgia Educator Says He Never Saw Anybody Improve Like Wife Has Since Taking Tanlac.

"Tanlac is the only medicine that ever did my wife any good," declared Professor W. A. Wood, of the Central graded school of Winder, Ga. "It has restored her health and relieved us of untold anxiety, for her case was a most serious one."

"Her main trouble seemed to be nervous indigestion," he continued. "She had suffered four years and had lost strength and weight in spite of the best treatment we could get. She was extremely nervous and loss of sleep pulled her down to a shadow. She could digest little that she ate and suffered from gas on the stomach, heartburn, and nausea, and she had headaches all the time, with persistent constipation."

"After some hesitancy we decided to try Tanlac, and she began to show decided improvement with the second bottle. She has since taken several and the results have been simply marvelous. She is gaining in strength and weight every day and practically all her troubles have left her. She eats and enjoys anything she wants and rests well at night. I have never seen any such improvement in any person in so short a time."

Tanlac is sold in Louisburg by Seagula Drug Store.

It's truly astonishing—almost marvelous, and the joy is its harmlessness.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR DOUBLE ITS BEAUTY

Try this! Hair gets thick, glossy, wavy and beautiful at once.

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few week's use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents.

13 Dollars—13 Cents

When Swift & Company paid, say,—13 dollars per hundredweight for live beef cattle last year, the profit was only 13 cents! In other words, if we had paid \$13.13, we would have made no profit.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book for 1919, just published which is brought out for the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action against the industry.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.
