

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful. I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good of relieved me until I took Cardui."

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stood up I was not able to straighten up again. I decided I would try Cardui. By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well. If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial.

THE MOST DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out! Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back—soak up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

After The Fire.

When your neighbor yells fire in the middle of the night and you see a lurid glare reflected against your windows you dash out of bed and work without regard to your powers of endurance to help quench the flames. You will fight, yes, and perhaps risk your life in an effort to signify your willingness to help. There is no suggestion of hesitation about your determination to offer everything you have in the way of assistance while the flames are eating their way through your neighbor's property. You act on a natural impulse to render all that is in you while the excitement is at its height.

But when the fire is out and there remain only smoking embers; when the crowd has dispersed and the fever of emotion has passed, leaving the dispossessed family viewing the ruins of the home; how many of those same helpful neighbors are there who will offer shelter, protection and the opportunity to get another home to the unfortunate family?

It doesn't take much of a patriot to offer help when the fire is raging but when the embers cool and the incident seems closed it takes a pretty good kind of a part to stand by and "finish the job" when the excitement is all over.

There will be little background of bloodshed, shot and snarl, wounded soldiers and heroism in the appeal of the Victory Liberty Loan, as in previous Loan campaigns. That, like the fire, is nearly all over. It is now a question of finishing the job, paying the bills and putting things on even a better basis than when the alarm was first sounded.

What kind of a neighbor are you?
