THIS TELLS HOW TO FIGURE INCOME TAX

Squarely Up to Every Individual to Get Busy by March 15 or Suffer Penalty.

"Don't wait until the final due date, March 15th, for paying your Income Tax and making your return. Avoid the last minute rush. Any person can figure out his liability today as well as he can next week, and if there is a point on which he needs advice he can now get in touch with a Revenue man."

This word of advice is being given out by Internal Revenue men. Returns and payments are being collected in No. Carolina by the following Collectors of Internal Revenue:

Josiah W. Bailey.
Austin D. Watts.

Every aid of their offices and field forces is being given freely to the public. But the Income Tax men will not pull your door-bell or your coat-tails, according to the Collector's announcement. It is squarely up to every individual to figure out his own case and to get busy if he comes within the scope of the new Revenue law.

Did You Earn This Much?
Every unmarried person who received income averaging \$19.25 a week during 1918 and every married couple who jointly received income averaging \$38.50 a week should secure at once from the nearest Deputy Collector or the nearest bank a blank Form 1040 A. That form contains the information he will need to enable him to figure his correct net income and any tax that he owes the Government.

The law requires that every unmarried person who had a net income of \$1,000 or over and every married person whose net income was \$2,000 or over (including the income of husband or wife, and the earnings of minor children, if any) must make a return on or before March 15th. And this requirement does not hinge on whether the person owes a tax.

Taxable Income.
An individual must include under gross income all gains, profits and income derived from salaries, wages, or compensation for personal service of whatever kind and in whatever form paid, or from professions, vocations, business, sales or dealings in property of all kinds, interest, rent, dividends, or profits derived from any source whatever. Very few items of income are exempt.

Deductions include ordinary and necessary business expenses, interest paid or accrued on indebtedness, taxes of all kinds except Federal income and excess profits taxes and assessments for local benefits, losses actually sustained, debts ascertained to be worthless, and depreciation on buildings, machinery, fixtures, etc., used in business. A further deduction is allowed for contributions to corporations operated for religious, charitable, scientific or educational purposes or for the prevention of cruelty to children or animals to an amount not exceeding 15 per cent of the taxpayer's net income as computed without the benefit of the contribution deduction.

The taxpayer is not allowed to deduct any personal, living or family expense, any amount spent for improving property, or any expense of restoring property or making good its exhaustion for which an allowance is claimed under depreciation.

Figuring the Tax.
Before figuring the normal tax the dividends are deducted as credits from net income, together with the personal exemption. As in previous years, dividends of domestic corporations are exempt from normal tax when received by the stockholder.

The normal tax rates for citizens and residents are as follows: On the first \$4,000 of net income in excess of the credits the rate is 6 per cent; on any further taxable income the rate is 12 per cent.

The surtax rates apply to net income of each individual in excess of \$5,000. The personal exemption and the dividends are not deductible before computing surtax. In the case of returns by husband and wife, the net income of each is considered separately in computing any surtax that may be due. Form 1040 should be used for making returns of net income exceeding \$5,000, and the instructions on that form will show how to figure the surtax.

Business House Returns.
Employers and others who paid wages, salaries, rents, interest of similar determinable gains in an amount of \$1,000 or over during 1918 to any person must file an information return with the Government. Blanks may be secured from the Collector.

Every partnership must file a return showing its income and deductions and the name and address of each partner, with his share of the profits or losses during the past year. Personal service corporations will file similar information for 1918.

Why Take Calomel?

Dr. Thacher's Liver & Blood Syrup will do all that calomel will do and without the "after effects."

Years ago, when people were bilious, when the liver got lazy and failed to do its work or the stomach was out of condition, calomel was the standby. By and by the users of calomel found that the "after effects" of taking the drug were as bad and more often worse than the ailment for which it was taken.

Dr. Thacher, in seeking a medicine to take the place of calomel—one that would do all the good that calomel would do, and yet leave none of its evil effects perfected Dr. Thacher's Liver & Blood Syrup. This was in 1853, and since that time has added to the confidence of those who have used it.

Miss Susie Brewer, of Chattanooga, Tenn., tried calomel. She was suffering with a very serious cold and gripe and had no appetite whatever. After the calomel failed she tried Dr. Thacher's Liver & Blood Syrup. She felt better after taking three doses and she soon got entirely well. "I think Dr. Thacher's Liver and Blood Syrup is wonderful medicine," she said, "and I am very thankful I tried it."

For nearly three quarters of a century this sterling preparation has been an "old standby" in thousands of homes in treating rheumatism, dyspepsia, indigestion and other stomach and liver complaints. It is a powerful tonic and blood purifier and can be used with the utmost confidence.

Write Thacher Medicine Co., Chattanooga, Tenn. for a copy of "Thacher's Family Doctor," a book giving cause, symptoms and treatment of 47 common diseases.
