**SEE THIS CAPABLE OAKLAND**

In the new Oakland Sensible Six we present further development of those virtues which, during seasons past, have established the Oakland as a thoroughly reliable car for the steady service expected by motorists.

Observe that the new Oakland Sensible Six has even more energy, faster pick-up, easier control in congested traffic and improved all-round ability to carry you quickly, safely and economically.

Note that the Oakland gives owners up to 25 miles to the gallon of gasoline and 8,000 to 12,000 miles on tires and is equipped to obtain the utmost power value

from the prevailing low grades of gaso-  
line.

One full working horsepower to every 48 pounds of car weight is delivered by the 44 h. p., overhead-valve, high speed, six-cylinder engine at 2600 r. p. m.

Engine efficiency is increased by a new force-feed oiling system, larger water pump and new-type biplane fan.

Extraordinary comfort is given by 106 inches of body room on the 112-inch wheelbase and by long, semi-elliptic springs that ride flat under load, eliminat-  
ing side sway.

Come see this capable new Oakland Sensible Six in our display rooms.
