A POPULAR GIRL WAS MADE HAPPY

Her Life Was Far From Pleasant Until She Made a Discovery That Changed Things.
This is a story of how Miss Marie Doggett, a well known Charlotte young lady living at 912 W. Tryon St., was quickly transformed from a highly

to a healthy, happy being. Miss Doggett says:
'I suffered from stomach trouble and catarrh for more than a year and began to lose weight. I was nervous, could not sleep at night and my skin was sallow and blotchy. I began to imagine that my condition was chronic and brooded over this. I lost all ambition and was left alone. I knew of the benefits my father had obtained from Pepsin and decided to try it. I began to improve almost immediately. I no longer had pains in my stomach, sleep soundly and gained in weight. I am now a healthy and happy girl and I am glad to let every one know of this discovery. I can recommend Pepsin to every one who is suffering from stomach trouble, indigestion, loss of appetite, nervousness, and all the ills that result from a weak stomach. I am now a healthy and happy girl and I am glad to let every one know of this discovery. I can recommend Pepsin to every one who is suffering from stomach trouble, indigestion, loss of appetite, nervousness, and all the ills that result from a weak stomach.

MANY KINDS, AND ALL GOOD

That Would Seem to Be the Verdict of Humanity on the Great Question of Pies.

They were talking about pies and discussing which was the best, and what we gathered from the cheerful controversy, all were the best.
The person who stood up for the good-old apple pie was just as eloquent in his references to the peach or pumpkin pie. In fact, each person would hurry through the praise of one kind of pie in order to champion another, which convinced us that of all the varieties of food in this world the pie is the blindest.

Sometimes you will find a man who doesn't eat pie, but watch him. Pie is a remedy for many distempers. We one time cured a ferocious sick headache with a quarter of mince pie, and that, too, on the advice of a physician.
One of the party never heard of a mulberry pie, and what a barren life she must have led. We are through with the cherry pie era and with what joy it has filled the world! We come to the berry era, and first of all there is the huckleberry pie, which berry has resulted from sun-burn and soil all the grass of the earth. If a man does not like a huckleberry pie, it is because the apple or cherry has not been used for snuff boxes.

The mimosa-like tree from which the snuff is obtained is plentiful along the banks of the Orinoco and the Amazon. It grows in Haiti, Porto Rico and other islands of the Antilles. The seeds yielded by its pods are dried, roasted and ground to powder, which is sometimes mixed with lime from calcined snail shell.
Only recently has this tree been identified by Dr. W. E. Safford of the government plant bureau as the

PRaises WOMEN OF NIPPON

California Newspaper Speaks in Highest Terms of Those Who Reside in That State.

Japan is a wonderful nation in a very great many ways, it has accomplished marvels, it has leaped forward place among the world powers, but we are convinced that the greatest thing about Japan is its women.

All women are, of course, charming, but our observation is that the women of Japan are especially and particularly so. We see much of them here in California, and we have an opportunity to judge.
To begin with, the majority of them are very pretty, and all of them have a certain grace that can come only from centuries of gentleness and good breeding. They have soft voices. There is an irresistible appeal in their manner.
It is often commented that the men of Japan have adapted themselves to Western ways with an incredible ease, but they have not imitated their women in the performance of this difficult task. The Japanese women are well as they are, and they are well as they are.

Grove's Tasteless Chill Tonic
restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 60c.

REBELION IN STOMACH

A coat like that shown above may be bought with the assurance that it is representative of the styles for fall and winter. It has the straight lines and the simplicity which style dictators agree upon and a high, cozy rolling collar.

Some day, of course, we will know who really started the war. But, in the meantime, somebody did it.
Each day we look expectantly for another illuminating remark from the governor of North Carolina to the governor of South Carolina.

About the best way to rid yourself of an unwelcome income tax is to pay it.

REBELION IN STOMACH
"Pape's Diapepsin" at once ends Indigestion and Sour, Acid Stomach
Lumps of undigested food cause pain if your stomach is in a revolt; if sick, rassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food—just take a tablet or two of Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what became of the pain, acidity, indigestion and distress.
If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless stomach antacid is Pape's Diapepsin, which costs so little at drug stores.

A Call for Heroes.

Man's opportunity for the display of personal heroism has apparently not ceased at the signing of the armistice, for a call has just been issued in a London daily newspaper for "Volunteers . . . 1,000 sportsmen of good social position, to wear upon a given day new fashions, to bring back color and life into masculine attire." The black frock coat with its ruffles, the pink breeches, the silk stockings, and the powdered wig of colonial days are conservative as compared with some of the styles to obtain as fruition of this idea; at least this is the opinion of its proponent, who sets as his definite purpose the abolishment of the "dark, unsymmetrical" garments of today and the adoption of clothes more in keeping with the new age of romantic chivalry. As a parting word, he reminds that courage—even to a degree equal to that manifested by women in the upkeep of fashions—is essential to masculine success.

Frightful Experience.

"What was my most thrilling experience?" mused the ex-pilot. "Ah! I could never forget it. It was a bright starlight night, but the lurid flashes around us obscured all else as we sped through the air. The advancing enemy was hard upon us, while all around we heard the weird, savage music so terribly familiar, and the thud as of a thousand falling meteors. We dived, looped, corkscrewed till our senses were numbed. I felt a sharp pain in my right foot, a dull weight in my side—I was falling, falling—and knew no more till I found myself lying on the ground badly smashed some hours later."

Paying the War Cost.

Referring to the cost of the war, Secretary of War Baker told the finance committee of the senate and house that the total outgo in round numbers would be \$30,000,000,000; but \$9,000,000,000 of this was loans to our allies. Nearly a third of the net cost has already been paid out of money raised by taxation. The other two-thirds was obtained from the five Liberty loans. If we pay a billion a year, besides interest, we can clear off the war cost in about twenty-one years.

Another Use for Airplanes.

Men interested in aviation have advanced the theory that photographic maps of cities made from views taken from an airplane, would be of value as a part of the records of the fire departments. They would be as valuable to the fire chief as similar maps of the battlefields of France proved to the commanders of armies. Such a map, for instance, would enable the chief to know at a glance the best means of getting at a big fire, the surrounding roofs and so forth. By use of the map the dangerous areas and zones could be plotted in the same manner as in wartime.

Anxious.

A city school principal was rushing along the street the other day when a youngster about eight years old stopped her. "Are you the principal at Blank building?" he asked. The principal nodded her head. "Why? Do you go there?" she asked in turn. "No," he returned. "I go to another building. But I just wanted to know if the lickin' had begun at your building yet?"

Big Contribution to War.

One of the most striking contributions of the United States to the war was the enormous quantity of smokeless powder high explosives produced by the Scientific American. From April 1, 1917, to November 11, 1918, we produced 832 million pounds of smokeless powder, which was almost exactly equal to the combined output of France and Great Britain.

The KEY to Opportunity
IS THROUGH A
Bank Book

Many a man has been held down when Opportunity knocked loudly at his door, just because he had not means to carry out her commands.
Many a genius has been compelled to step aside and watch some other man, inferior in intellect and calibre, march on ahead, just because he had not saved his money.

Take possession of that key today--insert into a bank book and open an account at this bank. Then, when the Opportunity comes to you, you will be ready to meet it.
