

WILSON PROCLAIMS THANKSGIVING DAY

Thursday, November 27, Set Aside By President As National Holiday.

CALLS ON PEOPLE TO SHOW THEIR GRATITUDE

Country Can Look Forward With Confidence To Dawn of Era Where Sacrifices of Nations Will Find Recompense in World at Peace, Wilson Declares in Proclamation.

Washington, Nov. 5.—President Wilson today set aside Thursday November 27, as Thanksgiving day in a proclamation which said the country looked forward "with confidence" to the dawn of an era where the sacrifices of the nations will find recompense in a world at peace.

The proclamation follows: "By the President of the United States of America.

"A proclamation.

"The season of the year has again arrived when the people of the United States are accustomed to unite in giving thanks to Almighty God for the blessings which he has conferred upon our country during the twelve months that have passed. A year ago our people poured out their hearts in praise and thanksgiving that through Divine aid the right was victorious and peace had come to the nations which had so courageously struggled in defense of human liberty and justice. Now that the stern task is ended and the fruits of achievements are ours we look forward with confidence to the dawn of an era where the sacrifices of the nations will find recompense in a world at peace.

"But to attain the consummation of the great work to which the American people devoted their manhood and the vast resources of their country they should, as they give thanks to God, revere themselves to those principles of right which triumphed through His blessing. Our gratitude can find no more perfect expression than bulwark with loyalty and patriotism those principles for which the free peoples of the earth who fought and died.

"During the past year we have had much to make us grateful. In spite of the confusion in our economic life resulting from the war we have prospered. Our harvests have been plentiful and our abundance we have been able to render succor to less favored nations. Our democracy remains unshaken in a world torn with political and social unrest. Our additional ideals are still our guides in the path of progress and civilization.

"These great blessings, vouchsafed to us, for which we devoutly give thanks, should arouse us to a fuller sense of our duty to ourselves and to mankind to see to it that nothing we may do shall mar the completeness of the victory which we helped to win. No selfish purpose animated us in becoming participants in the world war and with a like spirit of unselfishness we should strive to aid by our example and by our cooperation in realizing the enduring welfare of all peoples and in bringing into being a world ruled by friendship and good will.

"Wherefore, I, Woodrow Wilson, President of the United States of America, hereby designate Thursday, the 27th day of November, next, for observance as a day of Thanksgiving and prayer by my fellow-countrymen, inviting their devotion to their ordinary tasks and to unite in their homes and in their several places of worship in ascribing praise and thanksgiving to God the author of all blessings and the Master of our destinies.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done in the District of Columbia this 5th day of November in the year of our Lord, one thousand nine hundred and nineteen, and of the independence of the United States the one hundred and forty-fourth.

(Signed) WOODROW WILSON.

An Italian count, lately defunct, bequeathed \$10,000 to the city of Providence, R. I., the interest on which is to be presented by the mayor each year to the young lady "of the common people" who most deserves it as a reward for her "conduct and family virtues." He was some count, we think—but will the maidens of Providence admit that they are "common people" in return for the paltry sum of \$600 per annum? Watch the grand rush!

Apparently, however, that much heralded drive against the high cost of living is still in the heralding stage. More action and less bluffing would be welcomed by the man who pays the freight.

Having saved Europe from itself, America will again come to the front and save it from starvation. They always come to the fellow who has and is willing to give.

COAL FOR CUBAN SUGAR REFINERS

Provided They Sign Agreement to Ship Production To United States.

Washington, Nov. 7.—Appeals of sugar refiners in Cuba for coal were met conditionally tonight through orders issued by the railroad administration's central coal committee which modify the original export coal embargo. Under the new regulations the Cuban refiners will be permitted to buy coal here provided they sign agreements to ship their sugar production to this country.

The sugar shortage in the United States was admitted to have been the deciding factor in the discussion to change the committee's embargo. Estimates of the amount of coal required by the Cuban refiners varied but officials believed the amount would not be sufficiently large to affect materially the American coal stocks. Relief from the sugar shortage obtained as a result of the exchange now permitted is expected to be felt in the next two weeks.

NORTH CAROLINA WAREHOUSE SYSTEM READY TO OPERATE REVISED REGULATIONS REDUCE FEES

Raleigh, N. C., Oct. 31.—The regulations to govern the operation of warehouses under the state warehouse system have been revised and now are approved by the Warehouse Committee of the State Board of Agriculture. The main changes in the regulations are, (1) all warehouse managers are required to comply with federal, as well as state warehouse regulations. (2) The privilege fees from which are obtained the necessary funds for maintaining the system have been greatly reduced.

The revised regulations are being printed and should be ready for distribution this week.

The State and Federal Warehouse System is now ready to operate. A warehouse receipt has been drawn up according to which the warehouse using these receipts will be operated under the North Carolina and United States Warehouse Acts. A supply of these receipts has been printed and are now ready for distribution to warehouses at cost.

Application for warehouse license should be made to Wm. R. Camp, the Acting State Warehouse Superintendent, Raleigh, N. C. As soon as a warehouse is inspected by a federal inspector, and bond for a warehouse manager is provided according to forms furnished by the State Warehouse Superintendent, it may begin to operate as a bonded warehouse under the North Carolina and United States Warehouse Acts.

WE HAVE CONFIDENCE.

All the world knows that America is in a chaotic condition, but not all of the world believes that America has the brains, the will and the determination to bring sanity out of the bedlam.

We, however, have confidence that such will be the final outcome of the present era of brimstone and brutality.

We believe the government at Washington, and the congress of chosen representatives of the people, will arise to the patriotic heights necessary to restore order and fairness and justice throughout this land of a self-governed people.

We believe that the great mass of the American people will give to the government and the congress that loyal and unswerving support which is necessary in this hour of national travail. We believe that every true American will exert his utmost to restore our country to that condition of tranquility which prevailed before this wave of agitation and unrest and profiteering engulfed us. Regardless of the present deplorable conditions, we have confidence in America and American institutions.

TEXT OF THE RESERVATION PREAMBLE ADOPTED BY THE REPUBLICAN MAJORITY.

Washington, D. C., Nov. 7.—As it was adopted by the Senate the reservation preamble was as follows:

"The reservations and understandings adopted by the Senate are to be made a part and condition of the resolution of ratification which ratification is not to take effect or bind the United States until the said reservations and understandings adopted by the Senate have been accepted by an exchange of notes as a part and condition of said resolution of ratification by at least 3 of the 4 principal allied and associated powers, to-wit: Great Britain, France, Italy, and Japan."

EXTENSION OF FUEL CONTROL ACT NECESSARY TO PREVENT HIGH PRICES, ATTY. GEN. TELLS HOUSE COMMITTEE.

Washington, Nov. 7.—Extension of the Lever Food and Fuel Control law for six months after the proclamation of peace is necessary to protect the country from high prices, Attorney General Palmer today told the House Agriculture committee.

"Unnatural economic conditions," the Attorney General said would be taken "advantage of by unscrupulous people," to make prices high unless the powers granted under the act are continued in force. These conditions, he said, prevailed throughout the world.

More Necessary Now Than Ever. "The conditions in the country immediately following peace make it even more necessary that the law be continued than the conditions that prevailed and led to the enactment of the original act," said the Attorney General.

"The act originally had for its purpose the increase of production and to protect the people from war time conditions that result in very high prices. Since the armistice prices have very largely increased and unless the government control is continued over some commodities the after war conditions may result in higher prices than during the war itself."

Suggestions by committee men that extension of all sections of the law was unnecessary were answered, the Attorney General urging blanket extension for he said unexpected "situations might arise," and that the mere existence of the law would be of wholesome influence.

"The main purpose of the extension would be to stop profiteering," declared the Attorney General.

WILSON CONGRATULATES REPUBLICAN ON WINNING IN MASSACHUSETTS RACE.

Washington, Nov. 5.—President Wilson, from his sick bed today, telegraphed Governor Calvin Coolidge, of Massachusetts, congratulating him on his re-election, which the President said was "a victory for law and order."

The telegram follows: Hon. Calvin Coolidge, Boston, Mass.

I congratulate you upon your election as a victory for law and order. When that is the issue all Americans stand together.

(Signed) WOODROW WILSON. White House attaches said this probably was the first time in history that a President had congratulated a candidate of the opposite political party on his election to office.

Administration officers shared the President's view. They said Governor Coolidge's sweeping victory should go far to encourage officials generally over the country who are combatting radical propaganda, disorder and general social unrest.

Washington, Nov. 5.—President Wilson today congratulated Governor-elect Edward I. Edwards, of New Jersey, in a telegram which read:

"Please accept my hearty congratulations upon your election."

THE REAL MENACE.

It is not organized labor which threatens the future of this country. Nationalism.

Without organization labor would be underpaid and underfed.

Without the capitalist there would be no adequate avenues for the employment of labor.

Both must survive.

But the menace with which we must cope is the alien parasite who has fastened himself on organized labor and is daily eating out the heart of the great American republic.

These radicals from other lands are in a majority of cases not even citizens of our country. They are not loyal to our institutions nor to the true interests of the organizations to which they have attached themselves.

They are alien agitators and destroyers—nothing more. They preach their pernicious doctrines and pray upon the susceptibilities of others with the sole idea in view of creating discord and disruption for their own individual advantage. They would displace the intelligent leadership of labor organizations and usurp the seat of authority for themselves. And they are succeeding in these nefarious undertakings to an alarmingly wonderful degree.

Violence is their only effective weapon, and this they employ to the limit of their possibilities in their campaign of brutality and intimidation.

They are shrewd enough, however, to see that the responsibility for their devilishness is laid at the door of organized labor, and by this means escape the individual punishment which is their just due.

The American people have been bilged by these aliens until patience

The Allen Brothers Company "EVERYTHING FOR EVERYBODY" LOUISBURG, North Carolina

is no longer a virtue. The time is at hand for the government, the law abiding element of organized labor and the public to kick these malcontents out of the country or place them where they can no longer agitate and destroy. The poisonous snake is a source of constant danger and is promptly crushed. The alien parasite who is sucking the blood of honest labor and preaching sedition among our citizens is a national peril and should be exterminated.

PUSH YOURSELF ALONG. Some people sit through life waiting for others to push them along. If they are shoved aside in the scramble they are peeved. Their talents have not been properly recognized. If they are forgotten in the hurlyburly they become a grouse. The world is topsy-turvy. And so they drift along from one year to another, peevish, growling, grouching through life to the doubtful tune of their own shiftless incompetency. It's a mistake—the wrong perspective of existence. Life is too short to worry about the fellow who lags behind. The man who won't push must expect to be shoved. Pushing is a great game. It gets you somewhere. The harder you push the farther you go, and if you push hard enough and often enough and long enough you can reasonably expect to push yourself to the top. Keep pushing, young man. Push with a will and a purpose and with a definite goal in view. Set your aims so high that it makes you dizzy even to dream of them—and remember that only pushing will get you there. You may not reach the pinnacle of your desires, but you will climb to heights which will stamp you a man of men. The pusher is a man of parts. The laggard is but part of a man.

BIFF! Stop jolting Liver and Bowels with violent drugs, but take "Cascarets."

"Dynamiting" bile out of your system with calomel and other sickening purgatives is all wrong. Salts, Oil, and Cathartic Waters act by flooding the bowels with the digestive juices which are vital to the stomach. Cascarets are different. They act as a tonic to the bowel muscles, which is the only sensible way to relieve a bilious attack, a sour, acid stomach, or constipated bowels. There is no griping or inconvenience. You naturally return to regularity and cheerfulness. Cascarets cost very little and they work while you sleep.

WEBB TO SIT AS JUDGE ON COURT OF APPEALS Judge Pritchard Pays New Jurist Compliment of Invitation. Shelby, Nov. 7.—A distinct compliment is paid Judge E. Y. Webb in a telegram which he received today from Judge Pritchard, inviting him to sit as one of the appellate judges on the Circuit Court of Appeals beginning Monday. He wired his resignation as congressman today to Governor Bickett, effective Monday and has accepted Judge Pritchard's invitation, so his initial work as jurist will be at Richmond. As senior judge, Justice Pritchard has power to call either of the ten district judges in five states and the honor is very distinct for Mr. Webb, the newest in the jurisdiction of the Circuit court. Judge Webb returns to Washington tomorrow and will hand in his resignation to the Speaker of the House. He will hold the Asheville court, which has been adjourned until November 24. In all probability Judge Webb will make his official headquarters in Charlotte. American millionaires make their money in this country and blow it in over in Europe. European aristocrats pauperize themselves at home and marry American money to recuperate. The pauper gets something for nothing, and the plutocrat gets nothing for something.
