TOBACCO PRICES.

estional

The findings of the Federal Trade Commission as to the causes of the low prices of tobacco are helpful since they give information by which the farmer may shape his course another year. The commission concludes among other things that the learning of formation markets were to the commission of the c des among other things that the lea-sening of foreign purchases due to unfavorable exchange rates and the contraction of domestic credits result ing in unfavorable financial condi-tions in this country had something to do with the decline. It also finds that the increase of the quantity of low grades is also a factor while an-other reason. other reason is found in the purchasing methods of the large buyers. It may be one of these causes exerted appropriate sing influence on the price decline. So here is expert opinion to the effect that credit contraction. not, as some claim, wholly responsed SERVICES AT
