The Greensboro News shies off from answering a question submitted by a youthful debater—"Is the United States growing better or worse?" Well, we wouldn't attempt a detailed discussion, but Albert S. Burleson at last accounts was in Germany and George Harvey in London.—Raleigh Times.

The Commissioners are to be congratulated upon their order requiring all Township Road Boards to make a report showing the total amount of their bonded indebtedness. Together with the amount of sinking funds on hand and where they are being held. The Commissioners take the position that in many cases no sinking funds have been accumulated so they propose to change the order of things.

It is time that the Courts were taking some action that would guarantee a certain amount of safety to Police officers. There is hardly a week that passes that the papers do not carry an account of some attack upon the police officers in some town. In many instances the officers are killed. Unless the Courts can arrange some plan whereby one is not allowed to plead insanity or some other such fool plea and get by with it we had just as well quit trying to protect citizens and property with officers. They are not only not getting the desired results due to the extreme leniency of our Courts and technical unfiness of our laws, but in many cases sacrifice their lives. Lets do better or quit.

This is one year that we don't believe politics will quiet down between primaries. From the reports we get people in all parts of the County are talking politics and probable results next year. If the reports are true and the primary was to be held now there

is no doubt but that an entirely new ticket all around could win. Just whether this spirit will hold we can't tell. But the names that are being suggested for some offices are certainly good ones, and the indications point to a race for the gold next year. In addition to the natural fascination for holding a public office the increase in salaries of the offices giving more prestige through appointments and such, increase the interest of those in whose hat the political bee has been sleeping and he is beginning to buzz.

The attention of the voters of Sandy Creek township are directed to an article in this issue by the Board of Road Trustees. It is strange to see how opponents to a measure will conceive such unwarranted arguments to carry their points, but all sections have them. The only thing to do is trace them out and brand them. Just how the voters of Sandy Creek township can afford not to vote the bonds is more than we can see. Surely none of those who have good roads will oppose the issue. If they do the other voters should force them to pay the taxes, by going out and carrying the election. In view of the fact that the township has several important roads to be built one a government project where the township will get three dollars given by the government for every one it spends. We don't see how you can afford not to vote the issue. To those who have no improved roads we say vote the issue that you might have as good roads as the rest, and to those who have good roads we say do unto others as others have done unto you.

Bound Over to Court.

Mayor L. L. Joyner bound Mr. R. R. Southall over to court under a \$500 bond for a. d. w. on Chief of Police High Monday morning and also required him to pay \$50 fine and cost for being drunk and disorderly. From the information we get Mr. Southall was on the Streets Saturday evening under the influence of whiskey and Chief of Police High went to him to advise him to go home, when Mr. Southall drew his knife and struck Chief hitting him on the left cheek, about the same time Officer Perry being present and seeing the attack struck Mr. Southall over the head knocking him down in time to save further injury to Chief High. Mr. Southall was confined until Sunday when he was allowed to give bond for his appearance Monday. Mr. Southall took an appeal on the fine and gave bond in both cases.

"Let Not Your Hand Be Slack."

The above is the subject of Rev. G. F. Smith at the morning service at the Methodist Church next Sunday. He will also preach at the night hour. All persons are invited to attend.

Use for Ultra-Violet Rays.
 For some years ultra-violet rays have been used for sterilizing water, milk and other fluids. The idea has now been applied to the disinfecting of barrels and casks.

Bridal Superstition.
 According to old belief it is an omen of good luck—a long and happy married life—for a bride to step as she passes up the aisle on her way to the altar.

Don't crowd. It might prove uncomfortable if some one else should forget to be polite.

Can't Be Too Careful.
 A druggist must aim to keep the confidence of his public. Especially with his egg drinks.

Chief Warren Stone says that organized labor is now facing a crisis. It is, indeed; it must go to work.—Columbia, S. C. Record.

If the late Prince Otto Bismarck is conscious of the affairs of this old world of ours, it must strike him that the Allies aren't any great shakes as indemnity collectors.—Marion Star.
