**NOW IS THE TIME TO BUY**

The old adage "Never leave till tomorrow that which you can do today" finds added significance in the present merchandise situation. The habit of waiting for a lower price used to be a virtue, but it is now a vice, to put it less harshly, an extravagance. It is our frank opinion that for the present, at least, the market has reached its bottom-most level. As a matter of fact in some instances we have been compelled to pay increases on certain commodities, and it will not surprise us if, in the very near future, other lines show an upward trend.

From where we stand today we can truthfully say that NOW IS THE TIME TO BUY, and whether you buy here or elsewhere, you will certainly be buying RIGHT. The stores are offering at this time the BEST VALUES in the history of business.

**WAR DEBT COMMISSION BILL PASSED BY HOUSE**

Has Full Authority to Fund Allied Debt—Congress Cannot Review Action—All Amendments Lost.

Washington, Oct. 24.—After rejecting a proposal that Congress should have the right of review, the house late today passed the bill for creation of a commission, headed by the secretary of the treasury, with full authority to fund war debts of foreign nations due the United States and amounting to ten billion dollars.

The vote on final passage of the bill was 199 to 117. The measure now goes to the senate for early consideration.

Except for one minor amendment as to phraseology, the bill stood up like a stone wall while several Republicans and Democrats were attempting to pull it down with amendments.

First to be defeated was a proposal by Representative Frear, Wisconsin, a Republican member of the ways and means committee, providing that foreign nations indebted to the United States be required to pay a rate of interest averaging 5 per cent. Later the amendment by Representative Collier, Mississippi, Democratic member of the committee leading the fight for changes, to require congressional review or approval of claims settlements was defeated, 117 to 71, on a rising vote and 135 to 98 when members marched through the aisle for a man to man count. It was this same proposal, embraced in a motion to recommit, that was put to the house for a recorded vote later and defeated 185 to 131.

Amendments flew in from all sides, all being rejected. One by Representative Tinkham, Republican, Massachusetts, to prevent extension of time for payment of interest beyond two years, went down in a shout of noes. Towards the last Representative Fish, Republican, New York, stepped to the front with an amendment that interest payments be used toward a bonus for former service men. It was thrown out on a point of order by Chairman Fordney, who expressed the hope that Congress at the regular session beginning in December would vote for the bonus.
