A First Aid for "Weak Circulation"

Keep the favorite windows warm and safe

Many well-lighted parts of the house are not only uncomfortable but unsafe as well when a cold, raw wind is blowing outside. Cold drafts do get in, somehow. But you can turn them into warm ones with a Perfection Oil Heater.

There are some corners that you just can't seem to warm up with your regular coal heater. A Perfection will do it and save "rattling" the furnace for hours at a time.

Too much heat is almost as bad as not

enough. Keep the chill out of the house with your regular heating device and then supply the rooms you use most with the cheery warmth of a glowing Perfection.

The Perfection is remarkably light and durable. Put it just where grandmother wants it. It burns for about ten hours with a single filling.

Economize on coal this year by using more kerosene for heating. The price of Aladdin Security Oil is only about half what it was a year ago.

Almost all hardware, housefurnishing and department stores sell the Perfection Heater.

Ask your dealer about the Perfection Oil Heater Contest—\$5,000.00 in prizes.
