Insurance Power

NOT ALL MEN USE PICKS and SHOVELS when they want to level a mountain.
SOME OF THEM USE THEIR BRAINS.

Take a leaf out of Nature's book of experience, and apply the intensive force of a powerful stream of water directed right at the hill that stands in the way of Public Improvement.

THERE IS A GREAT POINT IN THIS, when considering the AGENCY in which to place your INSURANCE.

T. W. WATSON'S INSURANCE AGENCY enables you to apply POWER where it will most surely accomplish the desired result.

AS THE BIG STREAM OF WATER CUTS THROUGH THE SIDE OF THE MOUNTAIN, So the KNOWLEDGE, EXPERIENCE and SERVICE of THIS AGENCY, enables the ASSURED to CUT THROUGH FINANCIAL DIFFICULTIES in case of fire.

When You Think of INSURANCE THINK OF
WATSON

What Poor Coal is to your Furnace Low Grade Gasoline is to your Motor

ANY experienced oil refiner can make a gasoline which will develop maximum power, or give maximum economy, or easy starting; that will enable a motor to idle well and run smoothly at a low throttle; or that will give small carbon deposit. But to perfect a balanced gasoline combining all the desirable properties in proper proportion took years of careful experimentation by our chemists and engineers.

Grades from practically every producing field, improved refining processes, delicate chemical determinations, tests for flame speed, pressure, residue; tests in every type of internal combustion engine, both in the laboratory and in actual service; these were some of the factors which led to the development of our improved "Standard" Motor Gasoline.

This balanced "Standard" Motor Gasoline equals or exceeds other motor gasolines in power, economy, and economy. It keeps fuel and up-keep costs down the year around.

It is particularly desirable in cold weather when less perfectly conditioned gasoline makes motors sluggish even with a rich, wasteful, carbon-making mixture.

Next time you need gasoline drive in where you see the familiar "S. O." sign. Get a tankful of balanced "Standard" Motor Gasoline. See what remarkable pulling power you get on the hills. How quickly your motor "snaps in." Keep tabs on the mileage you get. One quality wherever you buy it. At service stations and garages everywhere.

Refiners of FINEST GASOLINE for all kinds of internal combustion engines.
