CO-OPERATIVE MARKETING

A Department Conducted For The Information of the Members of the Cotton and Tobacco Growers Associations.

By A. F. JOHNSON, Secretary

The following items have been sent out from headquarters at Raleigh: The campaign for members of the Tobacco Growers Cooperative Association is to be continued until February 2 when the board of directors assumes control, according to a decision of the tri-state organization committee at its recent Raleigh meeting. The decision to continue the campaign was made in view of the pressure brought on the organization committee from sections of counties where growers had not yet had an opportunity to sign the tobacco marketing contracts. Reports from Virginia, North Carolina and South Carolina shows that an overwhelming majority of tobacco growers in the three states have already joined the tobacco association, which is now declared to be the biggest organization in the United States, exceeding by many millions of pounds the amount of tobacco to be handled by the Kentucky burley growers association. New members are to be allowed to vote in the elections but their contracts do not count in determining the districts which have already been fixed for the first year.

Cotton growers of Franklin county are to meet in the county court house Monday, January 16, at 10:30 a. m. to elect delegates for the district convention of the N. C. Cotton Growers Cooperative Association. This county is in the Sixth district and is entitled to elect seven delegates to the district convention which will be held at Raleigh on January 18 at 10:30 a. m. County meetings of cotton growers are to be held in all cotton counties on the same day, as the first step in selecting the 10 directors who are to guide the cooperative marketing association through its first year. Delegates elected from the several counties are to gather in district conventions and name two men as candidates for directors from each district. Following the district conventions, ballots will be printed and mailed to each member of the association who will record his choice for director either in person or by mail at the district headquarters on January 21. Allotment of county delegates, one for each 1,000 bales signed up for cooperative marketing, was fixed in accordance with signed contracts at Raleigh headquarters on January 1, 1922, and will not be changed but new members will be allowed to vote at county meetings on January 16. Women never respect gray hairs if a drug store is handy.

HEALTH DEPARTMENT

Information Concerning The Health of the People of Franklin County, Worth Your Attention.

Dr. J. E. Malone, Health Officer.

It is the Christian patriotic duty of us all to aid our fellowman when in need. The ideal "The greatest good to the greatest number" entertained by a citizen, characterizes him as a humanitarian, patriotic Christian citizen, a good neighbor to live near. What a good old world this would be to live in, if the above ideal could obtain. The Peace Conference would go through and happiness, health, contentment and peace would be ours and spread itself over the world like a soft comfortable protecting mantle. Who is our neighbor? The next door family, no the people of the Creation. Just think of what has been done in the way of achievement along health lines, to say nothing of other lines as the result of health workers. All the diseases are milder than they used to be, and people live longer and all diseases can be prevented and most of all of them can be cured. Then why don't we put our mind to work and our shoulders to the wheel and make the work move on to a consecration satisfactory. Now here is a disease tuberculosis, a horrible affliction to a people and it has its habitat all over the world killing its thousands in every State, and Province. A slow, long drawn out tedious waiting for the end of suffering, death. Yet we all know that it can be prevented in the first place and that it can be cured. Yet when people have a cold of long standing, lose appetite and flesh, feel bad, they won't take the trouble to go to a Physician and be examined. Let me beg you people when you have the above symptoms and feelings go to your Doctor and ask him to give you a thorough examination and tell your trouble. Do this before it is too late. Take it in time and save your life. This is the best course to pursue by all its to have your family physician give you a thorough examination once a year, then go back to him after a year and repeat the examination. Do this in order to detect anything wrong with you and correct it before it advances too far. Do this and we will have a healthy people with long and useful lives. Report any case of Tuberculosis that you know of or suspicion. I won't tell on you. I will talk to you in the next issue of the Times. J. E. M.
