### HEALTH SURVEY TO BE MADE IN FRANKLIN COUNTY SCHOOLS

State Board of Health Sends Nurse To Make This Survey in The Schools.

Dr. G. M. Cooper, director of the Bureau of Medical Inspection of Schools, has placed Miss Birdie Dunn in Franklin to make a survey of health of school children. Miss Dunn has the following to say in regard to the nature of the work.

"The physical examination of school children for defects that retard normal physical or mental development of at least 50 per cent of the school children of America has begun in this county. These children are often regarded by parents and teachers as dull when, if the truth were known, in many instances the child is half blind, toxic from bad teeth, adenoids, or diseased tonsils, or his brain and body are lacking the stimulus of proper food.

"Malnutrition is really one of the most fundamental causes of these ills. The teeth decay and general bodily resistance is lowered from under nourishment. There are five million school children in the United States suffering from malnutrition. They have plenty to eat, but the parents either through ignorance or indifference, do not select the right food to build the body. It is the balanced diet that should be put before the child.

"Among the most common defects are defective teeth, disease and enlarged tonsils, adenoids, poor vision, bad posture, malnutrition and lack of personal hygiene.

It has been said that "The Soul needs saving only when the mind and body are wrong." And also, that "The manner in which its children are nurtured is in truth, perhaps, the best measure of the civilization of a race." If this be true, then a great responsibility falls upon the parent and surely it is the first duty of every parent to see that their children have healthy minds and bodies.

**Mother Instinct Unreliable**  
"Mothercraft, which means skilled motherhood, should be regarded as a profession, and yet we still find intelligent women depending upon "mother instinct" to guide them in the care of their children. This same mother instinct which tradition idealizes, is responsible largely for the 16 million defective school children in this fair land of ours today. Most of these defects are preventable and a large per cent are of a remedial nature. With these handicaps the child has poor chance of attaining his normal development of mind or body, and without correction premature death or invalidism in middle life may be expected in many cases. Only ten per cent of school children reach high school. Defective children are also more susceptible to the communicable diseases, and the illness absence loss during the school age is an injustice to the child and a serious economic loss to the community and the state.

Some authorities claim that much of crime, incorrigibility and even insanity are a frequent result of these physical defects and it has been positively demonstrated that many children suffering from these various handicaps improve in health, disposition and scholarship when proper correction is made.

**Our Goal Is Health**  
"Our goal is a healthy individual, and this is attainable in a large measure through right habits in food, rest, exercise, fresh air and personal cleanliness. It is the duty of the school nurse to visit the various schools in the county, examine the children for physical defects and report these defects to the parents. Health talks are made in each school and the children are instructed in the elements of good health.

"Let us remember that, 'The Wealth of a Nation lies in the Health of its Children.'"

It should be understood that the Nurse simply expresses an opinion in regard to defects. The child's parents are advised to consult their physicians or dentists for a positive diagnosis.

**SALE OF LAND**  
Under and by virtue of an order of the Superior Court of Franklin County made in that Special proceeding entitled Henrietta Carroll vs Onnie Roe and others, the undersigned commissioner will on

**MONDAY, MARCH 5, 1923** at 12 o'clock M., at the courthouse door of Franklin County in the town of Louisburg, N. C., sell at public auction to the highest bidder for cash that tract or parcel of land lying in Sandy Creek township, Franklin County, N. C., bounded as follows:

On the North by the lands of P. C. Carroll; on the East by the lands of R. T. Tharrington; on the South and West by the lands of Thos. W. Ruffin, containing 24 acres, more or less, known as the Old Frances Aycock home place. This the 29th day of Jan., 1923.

BEN T. HOLDEN, Commissioner.
