The meeting of cotton and tobacco growers of Franklin county was called to order Saturday afternoon cording to call by President J. Mitchiner, who in strong and fitting remarks introduced the speaker, Mr. B. T. Leopard, of Washington, N. C. to the five hundred or more interested rowers present. Mr. Leopard began his speech by

an explanation of how and why the main headquarters was divided into department, showing that a portion of the field department had not begun to

function as it should because of the inability to properly impress upon the farmers the importance of the local meetings in each school community. The importance of these meetings is readily seen when it is understood that ninety per cent of all errors could

be eliminated by the growers them-selves in these meetings. For in-stance the addresses of all members could be kept correct and any little friction regarding delivery or mort-gages could be immediately straightened out. Leaving this theme he pic-tured the benefits the Associations had been to all growers whether members or not, but more especially the mem. bers.

The next day we were informed that the Star Pool, Keeley balls, and other paraphernalia of the games in which it is usable to play for stakes had been destroyed and large placards posted positively forbidding any betting on the games.
