ANNOUNCEMENT!

I take pleasure in announcing to my many friends and customers that I have moved my stock of Heavy and Fancy Groceries to the Burt building corner of Court and Main street, south of the Court Square, where I have more room and am better prepared to serve your every want. I shall carry full lines at the very lowest price for quality and service to be found.

Come to see me and lets talk talk over your needs.

J. Allen Harris

Mr. Hicks Writes About Seed

Dear Friends;

After being in Johnson County for several months observing very carefully the different varieties of cotton produced by our most progressive farmers; and paying particular attention to the difference in yield per acre. I have become thoroughly convinced that every farmer ought, and should strive to obtain the very best variety of cotton seed, where by he might get an increased money value per acre, with the same amount of work. Knowing the need of better varieties of cotton in Franklin County as I do, I am taking this opportunity to show you the results of a community test here in this County which is given below.

Don't get the wrong conception of what I am trying to say because I am not saying this merely to sell a few bushels of seed for some fellow who has them on hand for sale. Not that at all. I really have the farmers of my home County at heart, and thoroughly believe if once they try out these thorough-bred varieties of cotton, and see for themselves, the actual advantage in producing these better varieties. They all will be greatly benefitted and in a few years time be able to increase their net profits one-hundred per cent.

Did you ever stop to think that there is as many possibilities in breeding cotton seed as there is, in hogs, horses, or any other livestock. You wouldn't think of raising your pork now days from the old "Pine-wood Rooters" as your Grand-father use to do years ago. Yet you are raising a variety of cotton that is even lower compared with the many better varieties that you could produce, than the "Pine-wood Rooter" is to your present breed of hogs.

Why keep planting that inferior variety of cotton, which only yields from two to four hundred lbs. lint per acre? When you can plant a thorough bred variety on the same land, and yield from six to nine hundred per acre, with the same labor, and the same expense. It has been proven that the Mexican Big Bole will do this and even more. Why not try it for yourself? It will not cost you but very little to purchase the seed, and it is a settled fact that you cannot get any variety but what will give better yield, staple, and grade than the so called "Sugar Leaf" that so many of our Franklin County farmers are now producing.

RESULTS OF COMMUNITY VARIETY TEST ON FARM OF J. H. B. TOMLINSON, SMITHFIELD, N. C., 1922.

Variety and source	Seed ton per A.	Lint ton per A.	Per cent	Staple	Money value per acre
Mexican Exp. Station	2912	996	34.2	1 1-16	\$315.04

Prices—Short staple 25c; 1 1-16 staple 26 1-2c; 1 1-8 staple 27c; 1 3-16 staple 28 1-2c.
Seed—80c per bushel.

These are prices in which present figures are based.

America, That Benighted Realm, Receives Tidings From the World of Light—Russia!

Moscow, March 16.—(By Associated Press.)—A tribe so primitive that it believes Americans live on the bottom of the world and are therefore in darkness has been found in the mountain villages of the Daghestan by Dr. F. A. Golder, of the Hoover foundation.

These people, Dr. Golder said upon his return here, think that Americans do their plowing while walking upside down with oxen to whose horns candles are tied. Believing that the world is table-shaped, with themselves on its top, they feel that the Americans are indeed unfortunate because they are compelled to live in eternal night.

Dr. Golder said that in many of the villages delegations greeted him as a man from the world below, some were anxious to know how Americans managed to get about. One old gray beard, sorely perplexed by what seemed an unsovable riddle, finally came to the conclusion that inasmuch as Americans are wonderful people they have undoubtedly taken a lesson from fly and learned to walk upside down.

"They thought I arrived by way of a hole in the ground, the ladder to which is kept by the czar of Moscow," Dr. Golder asserted.

These people still make fire with flint and steel and use stone hammers and shepherds' pipes. Justice is administered by trial by ordeal. The men who are remarkable physique, go about armed to the teeth, for they are feudists. The families live in stone huts in the practically valleyless mountains.

Although the people are Muslims, the women are not veiled and because of the present shortage of cotton cloth their only clothing consists of simple sheepskin coats.

"They nearly overwhelmed me with hospitality," Dr. Golder said, "appointing me my special guard a one-eyed bandit who had 35 notches on his war club. He would not let me out of his sight."

As a result of Dr. Golder's visit into this unexplored region, the American relief administration has sent rations for 10,000 children to the mountain villages where starvation is general.

PIGS FOR SALE
I will sell in Louisburg on Friday and Saturday, March 23rd and 24th, one hundred fine pigs and shoats at a very low price.
