Severe Indigestion

"I had very severe attacks of indigestion," writes Mr. M. H. Wade, a farmer, of R. F. D. 1, Weir, Miss. "I would suffer for months at a time. All I dared eat was a little bread and butter... consequently I suffered from weakness. I would try to eat, then the terrible burning in my stomach. I took medicines, but did not get any better. The doctor recommended

Thedford's BLACK-DRAUGHT

and I decided to try it. As I say, I had tried others for two or more years without any improvement in my health. I soon found the Black-Draught was acting on my liver and easing the terrible pain. "In two or three weeks, I found I could go back to eating. I only weighed 125. Now I weigh 147—eat anything I want to, and by taking Black-Draught I do not suffer." Have you tried Thedford's Black-Draught? If not, do so today. Over 8 million packages sold, a year. At dealers.

THAT BAD BACK

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing urinary disorders? For bad back and weakened kidneys Louisburg residents recommend Doan's Kidney Pills. Read this Louisburg statement.
Mrs. J. E. Pergerson, Church St., says: "I had a great deal of heavy work and I over-did. My back became weak and mornings I had a dull, aggravating pain across my kidneys. This dull misery bothered me all day long and the longer I stood, the worse the trouble became. When I stooped a sharp twinge shot across the small of my back and at times I had dizzy spells and dark spots appeared before my eyes. On a friend's advice I procured Doan's Kidney Pills and several boxes of Doan's removed the trouble. I haven't a spell of that kind since." Price 60c, at all dealers. Don't only ask for a kidney remedy—get Doan's Kidney Pills—the same that Pergerson had. Foster-Milburn Co., Buffalo, N. Y.

SAVE THE GARDEN CROP

Timely Suggestions About Spraying.

By N. C. May 29. Timely spraying will help to make a success of the home garden if carried out with proper care, and a reduced grocery bill as the result of this kind of crop insurance, are two thoughts suggested by G. W. Fant, extension plant disease worker for the State College and State Department of Agriculture.

Mr. Fant says that there is much less from the disease in the garden which is often mistaken for bad weather or poor soil conditions. A good many growers have found it profitable to spray tomatoes to reduce the amount of blight and fruit rot. If the vines die early and the trouble looks suspicious of wilt, send some specimens to the Division of Plant Diseases, State College, Raleigh, N. C. for examination. This wilt disease lives in the soil from year to year. It may be eliminated through the use of wilt-resistant varieties, he states. "Spray Irish potatoes with poisoned Bordeaux mixture. Experience has shown that this is the best all around practice.

It's pretty much of a disappointment to have a nice crop of grapes go bad from grape fruit rot. Unless spray is applied, there will likely be lots of it this year.

The spraying of watermelons and muskmelons prevents the early dying of vines, and eliminates the melon spots known as anthracnose.

If celery is grown, spraying while plants are in the plant bed and later in the field will control foliage blight and give rise to strong succulent stalks.

"Home-made Bordeaux mixture, plus arsenate of lead for chewing insects, is the cheapest and most effective spray for garden crops," says Mr. Fant.

Indications are that this a good year to save out some good seed grain for sale this fall. There is always a shortage of wheat, oats and Abruzzi rye seed from home grown stock.

No politician can make a good race if the wind is against him.
