**Chiropractic Health  
Talk No. 5**

BY  
**Dr. Chas. Bremner**

It is easy enough to get sick, but it is not so easy to rid yourself of disease. For centuries men and women have suffered and suffered more by the drastic methods used to bring about a better condition.

Until Chiropractic was formulated in the mind of Dr. Palmer people had to undergo drugging and operations, often-times needless, always painful. Chiropractic does not believe that it is essential that you remove important parts of your organism, placed there for a purpose.

Chiropractic is a science. It believes and has proven that diseases are directly caused by trouble with the spine, that the elimination of the nerve force by the subluxation which stops the nerve energy can only be relieved by adjusting of the spine, allowing nature to get in her good work.

Chiropractic does not fight nature. It gets nature to help. And for that reason patients find their health more everlasting. I can help you as I have helped others. Come to my office for spinal analysis and consultation.

**Thin Men and Women Do You  
Want to Get Fat and Be  
Stronger?**

The trouble with most thin folks, who wish to gain weight, is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract properly assimilates the food you eat. Drink a glass of cold water four or five times a day and take the following preparation, known to reliable druggists almost everywhere, which seemingly embodies the digestive organs to help them convert food into rich, fatladen blood. This preparation is called Prunitone taken at meals to prepare fat, flesh and muscle building elements so that the blood can readily accept and carry them to the starved portion of the body. You can readily picture the transformation that additional and previously lacking flesh-making material should bring to your cheeks, filling out hollows about your neck and shoulders and your taking on from 15 to 30 pound of solid, healthy flesh. Prunitone is harmless, inexpensive efficient. L. E. Scoggin is selling quantities of it to his customers daily, if you need a tonic try it at once.

Caution: Prunitone is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.
