 Seems as if the captains of in-
 dustry have given "Forward March."

Unique Romper

The simplest romper is this one
 with blouse and breeches in sep-
 arate pieces. The blouse is high-
 waisted with Dutch neck and short
 shirred sleeves. To the waistband
 button the diminutive trousers that
 are a single piece of cloth cut and
 shirred and buttoned to the waist
 and down the sides.

has been at an annual rate of \$320,-
 000,000, exceeding last year by \$100,-
 000,000.
 The estimation of four-year of a
 depression or fear that prices will
 go too high will do much toward
 bringing about steady, normal busi-
 ness conditions. After all, that is
 what must be desired in the com-
 mercial world.
 According to a survey of the Illi-
 nois committee on Public Utility In-
 formation, extension of electric light
 and power industry of the middle
 West during the present year is ex-
 pected to exceed greatly that of any
 other section of the United States.
 Total estimated expenditures for the
 whole United States in extensions and
 additions are \$692,143,000 while of
 this sum \$296,180,000 will be spent
 in the Middle West.
 Five east United States last year
 \$52,000,000—more than record-break-
 ing year 1906, when San Francisco
 conflagration swelled national loss.
 For the purpose of expediting car
 movement throughout the nation,
 American railways will expend \$676,-
 000,000 for new locomotives. The great-
 er percentage of this vast sum will
 go to labor.

RADIO IMPROVES RIVER SERVICE

The rapid development of radio and
 its use in commercial life are illus-
 trated in its application to the oper-
 ation of steamboats on the Mississippi
 river from St. Louis to New Orleans
 1100 miles.
 One of the great objections to river
 traffic in the past was its isolation.
 Today all the towboats and self-
 propelled barge units used on short
 auxiliary runs as feeders are equipped
 with wireless. They report their po-
 sitions several times a day and their
 movements are watched as closely as
 are train movements in a dispatcher's
 office.
 Radio is revolutionizing Mississippi
 river shipping and speeding up the
 arrival and departure of freight
 through putting the shipper and the
 boat companies in close touch with
 each other, thus obviating delays in
 loading and unloading freight or in
 waiting on the arrival or departure
 of boats.
 In this manner the radio supplies
 a missing link in our inland water-
 ways transportation.

Too close a shave?
MENTHOLATUM
 comforts and heals.

We like spring better than winter
 because in spring everybody else is
 lazy, too.

HONEST

Are you treating your talents
 with due credit when you have
 to buy an automobile every few
 years when you can have a deep
 well drilled with pure water,
 that will stand for ages, or
 have lights or water installed
 that will last a life time.

We furnish those things that
 go to make up a permanent con-
 venient for home comfort.
