Talk No. 6

BY

**Dr. Chas. Bremner**

There is one main nerve center that feeds the rest of your body. When that fails to provide the proper nourishment it causes disease. And that vital part of your body is the spine.

It is the main stream of your entire system. If a dam is placed across one of the arteries that feeds another section, it cuts off the flow of nerve energy and when that occurs you become sick.

For years past people have been trying drugs of various descriptions. And they have undergone operations until Chiropractic stepped into the fight with the common sense idea and proved its method to the world.

And I can prove to you to your utter satisfaction that Chiropractic will bring you back to health. And if I doubt it I will be frank to tell you so. At any rate it will cost you nothing to come to my office for spinal analysis and consultation.

It may mean your return to the most valued of human possessions—Health.
