

Feathers Must Come Before Eggs

Molting season is here. Your hens will easily lose their old feathers. But can they grow new ones?

If you don't give your birds feather-making feed, they will drain their bodies for feather-making material. The molt will be prolonged, and the birds will not lay next winter.

Chowder makes feathers. Feed twice as much Chowder as Hen Chow, and your hens will molt quickly and naturally. They will be ready for early fall laying.
