TAKES PASTEUR TREATMENT

Mr. L. W. Parrish went to Raleigh the past week to have a dog's head examined for rabies that had grazed his head while living. Upon finding that the dog was mad Mr. Parrish took the Pasteur treatment, although it was hardly thought he had become affected.

GET YOUR ENTRIES IN EARLY FOR THE STATE FAIR

Raleigh, September 17—Believing in the old adage that a stitch in time saves nine, Mrs. Edith Vanderbilt, president of the State Fair, which will be held October 15-19 inclusive, announces that all entries for the livestock and poultry divisions must be made by October 1 while entries for other divisions must be in by October 8.

Preparations for starting the Fair off in apple pie order or shape on the opening date are now under way, and one of the important things that must be attended to is getting the exhibits lined up before hand. This is necessary in order to have the judges start in early in the week.

All entries should be made to General Manager E. V. Walborn, whose postoffice address is State College Station, Raleigh, and they should be

EAT PRUNES IF YOU WISH TO GROW FAT AND PLUMP

Thin Men and Women Do You Want to Get Fat and Be Stronger?

The trouble with most thin folks, who wish to gain weight, is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract properly assimilates the food you eat. Drink a glass of cold water four or five times a day and take the following preparation, known to reliable druggists almost everywhere, which seemingly embodies the missing elements needed by the digestive organs to help them convert food into rich, fatladen blood. This preparation is called Prunitone taken at meals to prepare fat, flesh and muscle building elements so that the blood can readily accept and carry them to the starved portion of the body. You can readily picture the transformation that additional and previous lacking flesh-making material should bring to your cheeks, filling out hollows about your neck and shoulders and your taking on from 15 to 30 pound of solid, healthy flesh. Prunitone is harmless, inexpensive efficient. L. E. Scoggin is selling quantities of it to his customers daily, if you need a tonic try it at once.

Caution: Prunitone is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.

made early to insure having them properly entered before the Fair gets under way. Running a State Fair is no little job, and present indications are that it is going to be bigger this year than ever before.

Some of the exhibitors have already started getting their exhibits installed but, of course, they are the ones who are planning to put in elaborate exhibits of machinery. The majority of the exhibits will not be put in until the week before the Fair.

It's going to be a great Fair if hard work and substantial prizes count for anything. The Raleigh Chamber of Commerce has put itself behind a great home coming proposition, and it is planning to run a special train through the central part of the State in October to tell people about it.

Bigger and better than ever before is to be literally true this year, the management states, and this means that it's time to begin thinking about getting exhibits.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.
