## TO OUR PATRONS

We have made arrangements with the American Cotton Association for a limited number of copies of "Cotton News." This paper is published twice a month by the Association and teaches the latest and most economic cultural methods for fighting boll weevil, its control and diversification of crops.

We wish to get this paper in the hands of those who are interested, and to this end we will send one year to the first one hundred and fifty names and addresses sent us. If you wish this paper please advise us at once.

We also expect to arrange to have an experimental farm with supervisor from the American Cotton Association, due notice of which will be given through the columns of the Franklin Times.

The prosperity of our County is dependent upon our fighting the boll weevil .. He is here, and here to stay, but cotton can be made profitably under boll weevil conditions.

Yours sincerely,
