TANLAC KEEPS HARRIS RIGHT ON HIS JOB

Tea & Coffee Salesman States
World's Greatest Tonic Has
Kept Him Physically Fit For
4 Years.

"Since taking Tanlac, my health is better than I or any of my people or friends ever expected it to be," is the striking statement of G. R. Harris, 1414 N. 23rd St., Richmond, Va., well-known tea and coffee salesman.

"Five years ago, I suffered a general breakdown. My case was diagnosed as pellagra and stomach trouble and I had to give up and go to the country for a long rest. After some

months, I got better and came back to work but was still almost too weak to stand it.

"Then, four years ago, a friend put me on to Tanlac, and all the stomach soreness, costiveness, nausea, violent headaches, nervousness and sleeplessness that kept me so miserable and weak, left me.

"Tanlac has certainly meant money in my pocket for the occasional use of Tanlac, and Tanlac alone, has kept up my strength and kept me on the job continually these four years."

"Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

E. A. Spencer of Anson County reported to the County Agent that he averaged about \$90 per month from seven cows last year. He only bought one sack of cottonseed meal and two sacks of mill feed during the year. He grew his feed at home and exchanged cotton seed for the meal. He also made about 40 bales of cotton on 40 acres of land but will stick to his cows.

"Sheffield"
Trays made of Sheffield plate are popular wedding presents. Sheffield plating is a process which was developed at Sheffield, England, in the eighteenth century. A metal ware is made by a process of laying a thin silver plate on one of copper and rolling it. The accent is placed on the first syllable.

TRUSTEE'S SALE OF LOUISBURG WAREHOUSE LOTS

By virtue of that deed of trust made by W. H. and J. M. Allen to Wm. H. Ruffin, Trustee, dated Nov. 1, 1920, and recorded in Book 241, page 115-16, default having been made in the payment of the debt, thereby secured, and demand having been made on the said Trustee for foreclosure, by the holder of the debt thereby secured, the undersigned will on

MONDAY, FEBRUARY 18, 1924,

at the noon recess of Court at the court house door in Louisburg, North Carolina, offer for sale at public auction to the highest bidder for cash that warehouse lot and easements known as the Farmers Co-operative Company's Warehouse situate in the town of Louisburg, North Carolina, and more particularly defined as follows:

First. That certain lot or parcel of land situate on the east side of Main street in the town of Louisburg, bounded and defined as follows: Beginning at the corner of the J. F. Jones lot (now Farmers Co-operative Company's lot) and the C. B. Cheatham lot, formerly the Boatwright Prize House lot (now Allen Machine Company's lot) on Main street an iron stake; thence along the C. B. Cheatham line (now Allen Machine Company's line) S 58 E 234 feet more or less to the corner of the Tar River Manufacturing Company's lot, formerly the Cooper lot (now John S. Howell's lot) in the line of the S. A. L. Railway Company; thence along the line of the S. A. L. Railway N 26 3-4 W 279 feet more or less, to the corner of said railway on Main street; thence along Main street S 33 1-4 W 144 feet more or less to the point of beginning, it being the lot upon which is now situate an old dwelling house and a part of a brick warehouse building.

And also together with the afore-described lot an descendible, transferable and assignable easement in and to and upon that strip of land on the Southwest side or margin of the Depot site of the S. A. L. Railway, more particularly described as follows: Beginning at the Northwest corner of the foundation wall on Main street of the Warehouse now situate on said land, and running thence along Main street 23 feet to the line of the S. A. L. Railway; thence along the line of the said S. A. L. Railway N 26 3-4 E the full length of a Warehouse formerly on said lot 171 feet more or less; thence a line parallel to Main street and the first named line 23 feet to the northeast corner of the foundation wall of the said warehouse; thence a line parallel to the S. A. L. Railway line along the foundation wall of said warehouse 171 feet more or less, to the point of beginning, upon which was formerly located a meadow Jones Tobacco Warehouse building and upon which is now a portion of more than one-half in width of the said brick warehouse building, said easement being, however, limited to warehouse purposes only by the decision of the Supreme Court in the case of Ruffin vs. Railroad 151 North Carolina Report, 330, which settled the title to the above described lot and right of occupancy under said easement. The said lot and easement being the same conveyed by Farmers Co-operative Company to W. H. Allen and J. M. Allen.

PLANT SOME OKRA IN THE GARDEN

Raleigh, April 12.—As soon as the soil warms up enough to start making the garden, some okra should be planted. Successive plantings should be made every four to five weeks to insure a continuous supply throughout the year, recommend horticultural specialists of the State College of Agriculture.

A rich mellow loam soil which has been plowed rather deeply and thoroughly pulverized, is best. Stable manure is a good fertilizer. Where this is not obtainable, 500 to 1,000 pounds per acre of a high grade commercial fertilizer will usually give good results.

For Southern markets White Velvet is the best variety. The seed should be sown one to two inches deep in rows four feet apart for horse cultivation and three feet apart for hand cultivation. Later the plants should be thinned out to two feet apart in the row. Cultivation should be given frequently while the plants are small, and later often enough to keep the land free from weeds.

After the pods begin to form they should be cut every day, preferably in the evening, as only the young tender pods are desirable. Also, pod production ceases if the plant is allowed to seed.

The food value of eggs does not decrease as the price goes down. At this season of the year they are both economical—and healthful.

Spotless, Sanitary Bathrooms and Kitchens

YOU'VE long wished for an easy way to keep these rooms sweet and immaculate, without constant scrubbing. Red Seal Lye does the trick. It cuts grease, removes stains, and clears clogged traps instantly. Use Red Seal Lye daily. It's the greatest labor saver the housewife has.

HOUSEHOLD HINTS
Things Our Readers Want to Know
Things that are ordinarily very hard to clean—pots, pans, stoves, toilets, steps, etc.—quickly become spotless when Red Seal Lye is used as the cleanser.

Red Seal Lye eats up grease greedily, changing it into soap and, with the water, washes away dirt of all kinds. (Do not use it, however, on aluminum.)

Crevices and corners where roaches, bed-bugs and vermin abound should be sprayed with a solution of Red Seal Lye.

Red Seal Lye is also fine for making hard or soft soap at home quickly and cheaply. Red Seal Lye is recommended for this use.
