 "What are you doing, Doris?"  
 "I'm writing a letter to Mafale."  
 "But, darling you don't know how to write."  
 "Dat's all right, Mafale don't know how to read."

## HOME DEMONSTRATION WORK CENTRAL DISTRICT

Franklin County which has been in the Central District has been transferred to the Tidewater District, under the supervision of Miss Pauline Smith, District Home Demonstration Agent. We are publishing below a late resume of work in the district and will in the future print monthly resumes. The Home Agent of Beaufort County has completed the most intensive campaign ever waged in the county. She has visited each of the 67 schools three times, the people of each community having an opportunity of the services of the Agent for the first time in the history of the work here. Biscuit making for the girls and pastry for the women were the projects undertaken. The final rally day was held on March 24th with 1000 people present. In spite of the many days of rain, people came in cars, carts, on train and by boat. The speeches were interspersed by songs, stunts and yells by the schools of the county. The Washington Chamber of Commerce awarded seven trips to the Girls' Annual Short Course to the seven girls having the best biscuit in the county. McCullom's American Home Diet were awarded to seven other girls and numerous other prizes were given. Marie Paul, a little seven year old girl, won first prize in Richland township. Marie is a daughter of a tenant but is very ambitious and at this early age is planning to work her way through college and become a teacher. Marie is too young to attend the short course, so Myrtle Day, second prize winner represents Richland township. Marie has put her money in the bank to start her college fund, and will add to this from her poultry. John Smith, the only boy in the county to win a prize was given a cook book and a setting of Rhode Island eggs. When boys and girls take the interest in home and improved home conditions that John and Marie have then our "John Smith, Tenant" Problem will be solved. The Chamber of Commerce gave one night to a poultry meeting at which time the Home Agent talked of the importance of poultry work in the county. The Chamber of Commerce became responsible for \$1000 to lend to boys and girls who wish to begin the work.

Miss Harry of Bertie County has closed her campaign. The Windsor paper says of it: "Grand Bread Campaign and Rally day a great success. County boys and girls invade the city; forty four schools represented. Saurday marked the closing of Bertie county's first 'Campaign for Better Bread'. And it was a success from every viewpoint, from attendance, from the exhibition of bread, and from the enthusiasm manifested by everyone. Everyone seemed to understand that better bread means better health, less indigestion and happier homes. Therefore, never have we seen a finer collection or collection of biscuits. There were five hundred biscuits on exhibition; and after everybody who could, had inspected them and resisted the temptation of sampling, they were carried to the County Farm and fed to the inmates and prisoners. Prior to this 'Rally Day,' Miss Harry the efficient and energetic Home Demonstration Agent, had conducted a contest in every one of the forty-four schools in the county. The winners in each one of these schools were announced last week. This contest decided the best biscuit makers in the respective schools. Then these 'winners' in the various schools were pitted against one another in a contest to decide the best biscuits, baking powder biscuits, and Soda biscuits, were brought to Windsor right fresh from the oven, and the Home Demonstration Agents from Washington and Edgecombe counties judged the best. The judging was no easy matter either; for any biscuit among them would have been fit for the table of the kings. However, the decision was made and we give below the successful contestants and the winners of the prizes. Before the names of the successful ones were announced, a very interesting program was rendered. Miss Wallace, Assistant State Agent, made a most excellent address and Mr. Maybee, of the Entomology Department, and Judge Winston also made speeches. From all reports the occasion was most successful in spite of a steady downpour of rain.

Miss Eliza Knight of Chowan County has been busy with her sewing classes among the girls and nutrition work with the women. Only a busy mother realizes just what it means to have a little child taught to make its underwear and plain dresses. She has taught twenty lessons in sewing, given three demonstration in preserve making, and devoted three meetings to care of poultry. Miss Knight in cooperation with the Farm Agent is preparing to wage a campaign for Eradication of Rats. Dr. Silva of the Bureau of Biological Survey, has spent a day in (Chowan assisting the Agents with preparation for this campaign. Miss Knight has organized a night class at the local cotton mill.

Miss Alice Carter of Craven County is working with the poultry clubs. The interest is growing by leaps and bounds. Most of the members have constructed coops and other equipment. The money from the sale of poultry and poultry products on the Curb Market has increased interest each month. The Curb Market occupies Miss Carter's time each Saturday. The Commissioners have appropriated sufficient money to build a market house.

A Junior County Council has been organized in Craven. This is the third Junior County Council in the district. Hertford and Halifax counties having organized Councils last spring. A big feature of the month was the two days' Agricultural Short Course held at the County Farm Life School. Three sessions were held each day with 500 people present at each session.

## Home Demonstration Work Central District

Miss Allen of Halifax reports that the River Road people have arranged the school room most attractively. The woman's Club has taken up the project of fixing up the school grounds. Miss Allen is trying to interest the girls of all township centre schools to prepare to can soup mixture to use next winter in the school lunches. Preparation for canning work is very general in all of the clubs. The classification of foods is the work of the girls' club. The lessons are ended with outdoor games. The Hollister girls' Club has made up over forty dollars. This will be used to get laboratory equipment and to finance the expense of a girl to the Short Course. Miss Allen is very proud that the girls' clubs of ten communities have made money to send a representative to the Short Course. It is interesting to read of the ways the girls are making money to defray the expenses of representatives to the Girls Short Course. They are selling candy, peanuts, ice cream at cross road stores and the Halifax club plans to have a stand for eats at the County Commencement.

Miss Allen is taking orders for hooked rugs. The club members are busy preparing club exhibits to be displayed at the County Commencement. The Halifax Woman's Club at the suggestion of Miss Allen is preparing to have the creek that runs through the town drained and this section of the town put in more attractive shape. This same club is making money to buy curtains for the school auditorium, and has just presented the school with song books.

The sentiment for club rooms is spreading. Miss Allen says: "The thing that pleased us the most at Garner was that the teacher gave us an old room in the building to fix up our club room. The girls are going to bring some old chairs and tables from home and we are going to paint and enamel them to put in our room. Then the boys said they would fix us some shelves for our equipment and we are going to paint them also. The walls will have to be cleaned and the floor so that will bring up another problem for the girls in interior decoration. They want to make some rag rugs for the floor too, and we hope to do that before long. It has given us a wonderful problem to work with and one that all the girls seem to be very much interested in. The teacher said she was so glad I was going to do it for she id want the school to be as good as any one in the county and to look as nice."

Miss Myrtle Swindell of Hertford County has constituted her work in nutrition with the girls and plain sewing with the women. Both girls and women are working on sport hats. The recreational work has been games, wax work and pottery.

Miss Swindell has perfected the organization of a Girls' County Council which is perhaps the first organization of its kind in the State. An interesting feature of it is that some girl gives a demonstration at each meeting. Miss Swindell and a committee from the Woman's Club at Winton served luncheon to the Seniors and Faculty of Chowan College. It was provided by the young men of the town.

Miss Swindell is putting on a School and Home Improvement Campaign. Her publicity committee is composed of the ministers and editors of the county. The Winton Club has put \$150 in play ground equipment. This club is canvassing the town, collecting books for a library, which they expect to open. The club girls at Woodrow have sold sufficient pencils to purchase them a basket ball outfit. This is their contribution to the school improvement work.

The Holly Springs Club girls have also purchased a basket ball outfit. Miss Swindell is continuing her work in nutrition with the girls. They are making booklets to be displayed at the County Commencement. After the nutrition talks or demonstrations, each girl drafts a hat pattern. Clothing work is being taken up by the women. This was started by making dress forms. The women are now learning to use commercial patterns and making dresses. Decoration of old crocks and bottles to carry out the color scheme of rooms and dyeing of material for sofa pillows has added to the interest of the women. Poultry work is being conducted jointly by Miss Swindell and the Farm Agent. She assisted her people in getting a car of apples to Ahoskie to sell for \$1.25 per bushel. She says everyone was eager to get them and they were soon disposed of, having handled 600 bushels.

Mrs Gordon of Nash County has continued her county-wide "Biscuit Campaign" during the month, oftentimes giving two, three or more demonstrations a day, as did the other agents having a large number of schools in a county. This too was done in conjunction with the distribution of 250 settings of pure bred eggs, furnished by the banks, assorted and delivered by Mrs. Gordon.

Cooking tough hens with the Pressure Cooker and then serving them as salad with cooked and mayonnaise dressings were demonstrations the Women's Clubs enjoyed. Mrs. Gordon has been asked to supervise the menus for the new County Home by the County Health Officer. The Sharpshurg Woman's Club put lights in the school after the Board of Education agreed to pay the light rent. On Saturday's Curb market reports \$263.00, and cash Saturday's sales amounted to \$285.

Miss Mattie Lee Cooley of Northampton county arranged a most successful two day basketry school for the county. Miss Swindell of Hertford county conducted the lessons. Sewing trays, sewing baskets, flower baskets, etc., were made. Plain sewing is being continued in the girls' clubs.

Miss Mattie Lee Cooley of Northampton county arranged a most successful two day basketry school for the county. Miss Swindell of Hertford county conducted the lessons. Sewing trays, sewing baskets, flower baskets, etc., were made. Plain sewing is being continued in the girls' clubs.
