Have you prepared for the boll weevil? If not write for a copy of Extension Folder 14 that tells how to fight the insect. A card to your Extension Division, State College of Agriculture, will bring it free of charge.

S. B. Pierce of Halifax County has found that Abruzzi rye has given three times as much grazing as the common southern rye and now has a fair crop of grain despite hogs being on it all winter, reports county Agent W. O. Davis.

LITTLE CHARLES SYKES DEAD

On June the 4th the death angel visited the home of Mr. and Mrs. S. E. Sykes and took therefrom their dear little son, (Snook) as he was familiarly known. Charles was only two years and eight days old but his little life was precious. Of course father and mother felt like he was their own but now they realize that he belonged to God alone, and his little life was only lent to them and his death is only a tie that draws them nearer heaven.

hours yet all that loved ones know was done for him but to no avail. Grieve not dear ones. 'Tis sad it is true, But little Charles is safe on the other side. And is becoming now to you. The brightest jewel of our hearts, The treasure of our tent, The summer sun was shining, When forth from us he went, Farewell Charles, farewell the well. We know thy soul with angels dwell. P. L. V.

CARD OF THANKS

As it is not convenient for me to get around to see my many friends and neighbors personally, I take this method of expressing to them through The Franklin Times, our sincere thanks and appreciations to our departed friends and neighbors for their affectionate kindness rendered us during the recent illness and death of our little darling, Mary Elizabeth, words are inadequate to express to our many friends for their many expressions of kindness and devotions to us. They will always have a tender spot in our hearts as long as we live.

To Cure a Cold in One Day
Take LAXATIVE BROSSE COUGHING (Tablets.) It gives the Cough and Hoarseness and works off the Cold. E. W. GROVE'S signature on each box: 50c.

With the coming of vacation days motorists should give thought to the greater necessity this year for the protection of our forests from fire. This year has been a dry one. Last year there were 1,372 fires in our national forests. Fifty per cent of these fires were man-caused, and the area destroyed totaled 145, 287 acres.—Motor Land.
