A NOBLE DEED BY NOBLE WOMEN

From the beginning of time, man has been the aggressor, the oppressor, and the slayer of his fellow man in battle; woman has been the well of humanity, sympathy, and tenderness. The man wounds, the woman heals. Man represents God's first experiment in the creation of human beings, but the woman is His masterpiece. On every hand, we have today examples of both sexes who have only yesterday, emerged from the bloodiest conflict that the world has ever known, and these sexes are running true to tradition.

We, the Ex-Service men, have served our Nation in the World War, and now we are beginning to forget the hardships and horrors of battles, that is, the fortunate ones of us, who emerged unscathed, and physically fit to carry on the fight for the survival of the fittest. There are many

of our comrades, who cannot fight, they are the human wrecks of the storms of war. The American Legion has not forgotten our "buddies" who lie wounded in our hospitals, but in our fight to survive, we are forced to neglect them more or less. Thanks to our women, our wounded comrades are not neglected.

It is with a feeling of pride and gratitude, that we tell the world, of our Auxiliary and for the noble act that they have recently performed.

Oteen, is one of our Government hospitals, located at Oteen, N. C., and houses a great number of our comrades that are suffering with tuberculosis. Now of all places in the world that is dreary and monotonous, it is a Government Hospital, under military discipline and administration. The sameness of the food, the environments, the furnishings, and the "cure," is enough in itself to make the T. B. patient despondent to the point of surrender. There are certain wards and sun parlors that are reserved for the incurables—our comrades who will soon go West. These sun parlors were provided with the necessities of the "cure" by our Government, but they were drab, dreary, unattractive, and altogether a miserable place for the mortally wounded men and women.

to bask in the sunlight of their few days left on earth. Our women saw the necessity of a homelike environment for them. They determined to furnish the sun parlors with homey furnishings, and to make the down trail more beautiful and comfortable for those who must travel it. Five thousand dollars was needed for this work, and the American Legion Auxiliary gladly volunteered to raise this fund. Did they? Ask the men at Oteen, but let us tell you, they certainly DID.

Now, for the surprise. Of this five thousand dollars which was to be raised throughout North Carolina the Jambes Post Auxiliary gave one hundred dollars. Naturally, we Jambes men are proud of our women. We have never studied voice, but we can sing "Praises to our Post Auxiliary," when we consider the fact that North Carolina is quite a large town and that one hundred dollars out of five thousand is a Babe Ruth Batting Average.

We thank the citizens of our community, who gave so generously to this fund, we thank every individual who bought a poppy on Memorial Day (by the way, that's where your money went, in case you are not aware of it, the best spent dime you ever invested,) and we thank our Auxiliary for the privilege and pleasure of sub-

scribing to this fund ourselves. It goes to prove that the man wounds and the woman heals, the man is prone to neglect his fellow man in distress, but the woman never neglects, and it absolutely is proof of the fact that the woman is God's Masterpiece.

Bread Making—Quick breads, yeast breads.

Canning—Meats, judging canned products.

Poultry—Feeding, judging poultry

"Go put the rooster in a pen

Till breeding season comes again;

Or if he's just a common scrub

You'd better make him into grub."

Good fruit can be had only by giving attention to the orchards and many Tarheel farmers are finding that this pays a handsome profit.
