The economic development that has occurred in the South during the last decade has materially improved the outlook for the various railroad systems which serve it. The South has forged ahead at a very rapid pace during the last few years and its progress has been reflected in the increased traffic and larger revenues of its common carriers.

No insurance has yet been found which will prevent death and destruction from fire or accidents; hence it pays to be careful.

The job holder is the backbone of every political party. Jobs are the currency in which party debts are paid. This currency is at present inflated—we have too many job holders eating up tax funds.

Electric light and power companies are furnishing service to approximately 2 1/2 per cent of 164,347 of the 6,500,000 farms in the United States.

THE MAN WHO SIGNS MUST MAKE GOOD!

A responsible man puts his name to a piece of paper and it becomes a check—the equivalent of money.

He signs his name on the back of another piece of paper and it becomes an endorsed note—good for money.

He writes a letter and it becomes a binding contract.

The adding of the name makes these things solemn and legal obligations.

The man who signs is responsible.

Just so with an advertisement—he moment a man signs his name on it he has made a pledge to the public.

He is bound by his word as much as if he signed a check or a note. He must do what he promised on the terms he promised.

If he does not, he courts business disaster. The man who advertises a lie publicly proclaims himself a liar. Such men are seldom in business but frequently in asylums.

It is safer to buy advertised articles than nondescript ones. It is safer to deal with merchants who advertise than with those who do not.

An advertisement is a signed pledge of good faith to the public.

Perhaps there are some who would be interested to know of the progress our Union is making. For three successive Sundays our union has been 10 per cent on all points. Can we do more than that? I say yes. By going out and trying to get other boys and girls into the Union, and then helping them all we can. In this way someone might decide to give his or her life to Christ. And so prove a wonderful blessing to the older members of the Union. Again I say we can do more than just be 100 per cent members ourselves.

Keep Your Eyes Open

P. T. Barnum says there was one born every minute. But that was in the day before modern advertising methods were devised.

There is no occasion for being fooled when it comes to spending your money in this day and age. Patronize the merchants who have a reputation for fair dealing and honesty. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his patrons.

The consistent advertiser pays money to tell you about his goods. He knows they are good—he backs them up because he believes they will satisfy. Only merchandise which is consistently good can be consistently advertised. So advertising protects you against fraud and inferiority. It tells you what is new and good, making you a wise buyer. It saves you money by pointing out for your consideration only the best products and the best places to buy them.

Thrifty men and women read the advertisements. To them it is plain, every day business proposition—a duty they owe to themselves and to their pocketbooks.

DON'T SPEND YOUR MONEY BLINDLY. READ THE ADVERTISEMENTS
