What has become of the fellow who used to think it was smart to remark a half dozen times during the evening, "It's a long time between drinks!"

Tom Tarheel says the boll weevil cant eat ham and butter and eggs and corn bread and garden truck so the folks at his house will be well fed this winter even if they dont make much cotton.

Exclusive Headquarters

We Are Believers in Guaranteed Goods—

AND we believe in them because we know it is our duty to give you every possible assurance, in advance, concerning anything you may purchase in this store. Guarantees are of added importance where jewelry is concerned. This store is one of the city's INSTITUTIONS. Its purpose is closely allied with sentiment, of gift-giving, of birthdays and weddings, anniversaries and other occasions of sentimental value. You will be interested in our announcement, therefore, that we have contracted to act as exclusive agents for the very well known line of W. W. W. guaranteed goods, such as

Pearl Necklaces
(in complimentary jewel cases)
Orange Wrench Wedding Rings
Diamond Rings
A Splendid Variety of Gem-Set Rings
Diamond Mountings in 18K white gold

The manufacturer absolutely GUARANTEES them, and the news of this W. W. W. Guarantee is now known wherever finer jewelry is sold.

The W. W. W. Guaranteed Line is priced as moderately as those WITHOUT guarantees, and often you will find them priced LESS than you would pay for unknown lines.

A standing army runs into big money. Parents who set good examples for their children are hard to work.

PERSISTENCE

By THOMAS ASKLE CLARK
Dean of Arts, University of Illinois.

I FOUND the old man sitting by the roadside of an English country by-way breaking stones to be used in keeping the road in condition. I had seen him frequently as I passed to and fro to the village, but today I stopped a while to rest after my long walk and to talk to him.

He had been a stone-breaker all his life, and he took not a little pride in the fact that the smooth level road over which I had traveled owed much to his labors. Great piles of rough stones lay along the highway—piles that suggested wending toil to me, but he seemed to regard them only as an opportunity.

"I took up one of the hammers that lay on the ground and tried my hand at the work with rather ill success. A few fragments were splintered from the rock, but it did not break. I was hitting too vigorously," he said; "I was expecting to accomplish with one hard blow what it would take a half dozen or more to do; I wanted results immediately."

"Time and patience," he said, "time and patience, and the stones finally yield, and the piles of broken stone grow."

The temptation to name babies after presidents and rich relatives is irresistible.

Ribbon Filet for Youthful Coiffure.

It is a pretty sight to note the cunning ribbon coiffure arrangements which youth is wearing this season. Perhaps the vogue for bobbed hair is responsible for these very charming ribbon bandeaux and filets noted at party and dance. Anyway, with all due respect to the "bob" it is no exception to the "thorn with every rose" adage, which in the case of short tresses is that they have a way of blowing recklessly about at the touch of every breeze. However, necessity being the mother of invention, the cleverest sort of ribbon fantasies are designed to confine curly locks or straight.

So what care we as long as fashion declares in favor of the fanciful ribbon filet! The one in the picture is made of narrow gold ribbon with lots of color in its weave.

If perchance anyone is so courageous as to abandon the bob, why not, while tresses are growing out, artfully conceal the fact with a pretty ribbon conceit such as is shown in the picture.
