#### INSURANCE A NECESSITY INSURANCE ACTUALLY DEALS WITH EVERY HONEST BUSINESS UNDER THE SUN

Fire insurance has come to be not only a householder's security, but a national necessity. The home owner must protect his family and provide shelter; the renter must guard his household goods. Business concerns, factories, churches, schools, colleges and corporations must protect their property investments. The man who can thus provide the security of a community against financial loss from fire is its insurance agent, through his companies.

It soon appeared plain that the women and children were being passed over and only the men murdered but Paul was easily the size of a man. As he saw this horrible death awaiting him he determined to escape. Terror gave him strength and after a difficult struggle his hands were free, after another vigorous and pulling battle were liberated also, at that moment the Indian approached him and he sank back on the ground, as the Indian bended over him he sprang up and seized the murderer by the throat, grabbing the tomahawk he struck him twice and then, still retaining his weapon, made for his escape, his action was discovered by some Indians and swiftly pursued he ran on and on. He had evidently escaped from the Indians so he climbed the tree and slept there until dawn when he started for Stonesboro, being familiar with the region miles around Stonesboro it was an easy job and he soon arrived there and told his anxious parents his story. Here my story ends but I would
