No Worms in a nearby Child. All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILD TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Worms will then throw off or digest the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

A few good reasons why you should

Sell Your Tobacco

On

The Rocky Mount Market

The prices paid on this market are the highest paid on any market in Eastern North Carolina.

We have four large warehouses operated by men who know the tobacco business and they take an individual interest in every farmer who sells his tobacco here and get him a good price for every pile of tobacco he has.

We have a large set of buyers representing all the large companies and numerous independent companies. Small markets cannot afford many buyers and do not have the competition found on this market. There are numbers of large factories here with the facilities for handling great quantities of tobacco and they can always handle any amount of tobacco offered. Buyers always pay more for tobacco when it is bought on the market in which their factory is located.

All roads leading into Rocky Mount are in good condition and you can haul your tobacco thirty or forty miles without any trouble.

Bring your tobacco to Rocky Mount and save the difference.
