### INSURANCE A NECESSITY INSURANCE ACTUALLY DEALS WITH EVERY HONEST BUSINESS UNDER THE SUN

Fire insurance has come to be not only a householder's security, but a national necessity. The home owner must protect his family and provide shelter; the renter must guard his household goods. Business concerns, factories, churches, schools, colleges and corporations must protect their property investments. The man who can thus provide the security of a community against financial loss from fire, is its insurance agent, through his companies.

Piles Cured in 6 to 14 Days  
Long trousers were born one hundred years ago. It was along about that time when men's legs began to lose their plumpness.

### WHY DEMOCRACY SHOULD PILOT THE OLD SHIP OF STATE (Continued from page two)

raising of salaries for Postal Employees was passed through the efforts of both the Democratic party and the insurgent ring of their party, and vetoed by their president; it is a matter of record that Mr. Coolidge retained both Daugherty and Denby until it became so intolerable that he was forced to demand their resignations by the senate, and almost broke his heart; and it is a matter of record that their pledges to the farmers of the country during the campaign of 1920 were broken and now dare to look those farmers in the face. The present administration was conceived in sin, and brought forth in iniquity, and it has not belied its parentage. It is essentially and radically corrupt. Their speakers are now out before the people talking reform, and deprecate with holy horror the consequences of their own misdeeds, but no sooner their object accomplished return to their policy like a dog to his vomit. I have no hope of reform in the party in power, my only hope is that the people convinced of their hypocrisy and corruption will hurl them from their high places of honor they have so long disgraced. What a record. It is high time for a change as we are now on the brink of Monarchy, and for them to continue in power much longer will cause our grand Empire to fail. I appeal to all lovers of honest, clean government to rally to Democracy's standard bearer, and hurl them from Hell to Breakfast. If the excessive use of money was eliminated from the Republican party there is no doubt but that the Democratic party would control this nation, and not only the people of this nation would experience a new day of prosperity, but the whole world would share the divine blessings which are in store, awaiting that great and glorious day.

Now, I have stated the facts pertaining to their policies in a nutshell, and would like to state the facts pertaining to Democratic policies. The Democratic party was founded upon the principle that this government was established to protect for all time the rights and privileges of every individual, regardless of party or creed. Did you know that the reason Democratic orators excel those of the Republican party, is simply because the unvarnished truth comes from the soul and reaches the soul of the audience which vibrates back and forth with increased inspiration, and conscientious power that reverberates onward and upward until it reaches the stars and mingles with them in all their celestial glory. The services of the Democratic party have always been in maintaining the constitution, it has been the paramount promoters of economy, and the enemy of corruption.

It is to the Democratic party that this country owes its chief glory and development. It was the Democratic party that extended the boundaries of his Republic, from the Mississippi to the Pacific ocean, it was the Democratic Party that acquired the territory of Louisiana, which extended from the Gulf of Mexico up the Father of Waters to the Dominion of Canada, embracing Iowa, Dakota, Kansas and all the vast region west to the Rocky Mountains. It was the Democratic party that acquired Florida, New Mexico, California, including their grand extent of country, plains, rivers, and mountains, with all their wealth of gold, and silver and precious metals, embracing approximately one million square miles. Not a single foot of land has been added to the Empire by the Republican party, except Alaska, a broad stretch of icy waters, a land inhabited by seals and savages.

In our political firmament have always shone stars of brightest lustre that have not failed to guide us to peace and prosperity. Some of them have been of the first magnitude and of dazzling brilliancy. High in the honored constellation was one that rose in the valley of Virginia and shed its light over the land and the sea, and did not culminate until it had gilded the far off horizon of eternity and that star was Woodrow Wilson. From such a casket of mutual treasure there could but fall pearls, priceless as ever gemmed the Nations coronet. During the regime of the late Woodrow Wilson the nation experienced its most prosperous period in all of its history, though a stormy one, and the skies lowered, and reverses threatened, but the old flag remained intact, and waved its colors above the mansion of the Presidency, without a stain on its folds, and without a cloud on its glory. I repeat it the late Woodrow Wilson was the greatest scholar, the greatest statesman, and the greatest patriot that was ever produced on American soil. He gave utterance to the aspirations of humanity with an eloquence which held the attentions of all the earth, and made America a new and enlarged influence in the destiny of mankind. He has left a name that will be inspired forever in the hearts of men and women who love justice, right, liberty and equality, as the symbol of the loftiest ideals which extricate human kind from the mesh of Barbaism and lead it to a state of real and true civilization. I will enumerate briefly a few of the laws enacted during the late Woodrow Wilson's regime. Vis: The Auto Trust law was passed; the Federal Field controlling the manufacturing corporations was passed; the shipping board which controlled the water transportation in a similar way the Interstate Commerce Commission controls the railroads and transportation; it passed the Great Seaman's Law which gave protection and rights to this helpless class of workers; the Free Tolls clause in the Panama Canal Acts was repealed, and was a very necessary law; the Anti-Junction Law was passed, which restricts the use of the injunction in

## Come to Us for Business Counsel

Few women know, and they cannot be expected to know, the ways of the business world. Their time and attention has been spent in keeping their home. So when occasion arises that you must make a business decision, do not try to handle it alone. Come to us for counsel. We will gladly give you the benefit of our business experience.

labor troubles, so that it could no longer be used as a weapon of injustice by the money powers; the Income Tax Law was passed, which taxes each and every man in proportion to his pocket-book, not in proportion to the number of children he happens to have; the New Parcel Post Law was passed which makes it possible for the rural people to receive and send packages without going to the Express office some distance away; the Federal Reserve Banking law was passed, and one among the best pieces of legislation in all of our history, and doubtless without it we would scarcely have won the world war; the Federal Land Bank Law was passed which has been the salvation to thousands of farmers, I have stated many historical facts pertaining to the late Woodrow Wilson's Administration that are un-

disputed, and if time would permit, I could give a hundred. Like the Fair Sultan of the Oriental Legends, I could go for a thousand and one nights and even as in those Eastern stories, so the tale would ever be heaps of gold, massive nuggets, uncounted riches. I appeal to every man and woman to register and vote if they wish for American liberty to be preserved, and wish to maintain their rights to life, liberty and the pursuit of happiness. I recall that several years ago that grand old common-wealth of Tennessee was lost to the Republicans which was due to the 50,000 absentee votes, a sufficiency to have given Democracy a large majority. Let us all register and vote, and when the ballots have been cast in the files of November in numbers like the falling leaves in Autumn that this na-

tion will elect a Democratic president with a Democratic Congress, and crown our efforts with victory, thereby assuring a yet more splendid future of peace, prosperity and happiness.
