

HOW DOCTORS TREAT COLDS AND THE FLU

To break up a cold over night or to cut short an attack of gripe, influenza or sore throat, physicians and druggists are now recommending Calotabs, the nauseless Calomet tablet, that is purified from dangerous and sickening effects. Those who have tried it say that it acts like magic, by far more effective and certain than the old style calomet, heretofore recommended by physicians.

One or two Calotabs at bed time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with eating, work or pleasures. Next morning your cold has vanished and your system feels refreshed and purified. Calotabs are sold only in original sealed packages, price ten cents for the vest-pocket size; thirty-five cents for the large family package. Recommended and guaranteed by druggists. Your money back if you are not delighted.—adv.

SUPPORT THE TEACHER

There are approximately eight hundred thousand school teachers in the United States, not including superintendents, supervisors and principals.

Here are eight hundred thousand opportunities for service that can not be measured in ordinary terms, if they are appreciated.

Teachers who live up to their possibilities do more than teach children facts that may be learned from books.

They teach them to appreciate the good things in life; tolerance for others; that joy comes not from selfish pursuits, but by making others happy, and that the well-rounded man or woman is not self centered.

Though they have a powerful influence over children, school teachers can not accomplish the results most to be desired without the aid of parents in providing the proper environment at home.

Every community is proud of its schools and its boys and girls. The measure in which their lives redound to the glory of their home community depends upon the support which the teachers receive.

Back them up for results that count in later years.

Does Your Back Ache?

Bad Backs Bring Suffering to Many Louisburg Folks.

Is that dull, constant backache making you old and miserable? Does your back throb and ache until it seems you just can't keep going? Do you suffer headaches, dizzy spells and urinary disorders; feel weak, tired and worn-out? Then look to your kidneys. Delay may mean serious kidney sickness! Use Doan's Pills—a stimulant diuretic to the kidneys. Doan's are recommended by thousands.

Mrs. W. A. Mitchell, Main St., Franklin, N. C. says: "I used Doan's Pills at different times for pains in my back. My back was so sore, no matter which way I turned, I was in misery. I had terrible headaches, and dizzy spells too, and specks would dance in front of me. Whenever these attacks came on, I used Doan's Pills and they always fixed me up all right."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Mitchell had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

To our Farmer Friends of Franklin and Adjoining Counties:

I wish to advise you that we are now selling tobacco HIGHER than any other market in your reach.

The way we want to prove it, is asking you to give us a trial and then we have no doubt that we will continue to sell your tobacco. I claim to be the Farmers Friend.

Everybody says that the UNION WAREHOUSE sells tobacco higher, and we sell tobacco, not the man, and we have averaged more than any other market in the State so far.

Cover Crops!

Cover Crops!
Cover Crops!

Let's ask ourselves why the best farmers all over the South today are sowing cover crops, talking cover crops, and many of them even dreaming about cover crops.

When we really let ourselves think what ails Southern farming, it's easy to see why cover crops constitute the medicine we are after. The greatest needs of our Southern soils are protection from washing and more humus and nitrogen. Cover crops supply these three needs, and supply them with less expenditure of time, labor, and money than any other means. A systematic and persistent use of cover crops will make poor land rich, will give increased profit from the use of fertilizer, and will furnish the cheapest livestock feed that we can produce. They do all this without interfering with the crops we habitually grow and actually aid in making the crops that follow of better quality and heavier yields.—(Progressive Farmer)
