**EDITORIALS**  
Press reports show that the Peanut Growers Association, which went to pieces so badly about two years ago, has come to life and is making good.

Now that the election is over lets all get down to business and make a better town and county. After all its us and not the President that makes conditions good or bad.

It has developed that although La-Follette received only a small vote his entry into the campaign at the head of a third party was a trick of the republicans for the purpose of dividing the Democratic vote. And lo and behold many Democrats stepped in.

Is Louisburg going to sit still and make no effort at getting the Atlantic Coast Line to come here? Franklinton could well afford to join with Louisburg in this matter and let the road go through both towns. Lets do something before its too late.

Two of the biggest mistakes the Democratic party has made in this campaign were, first the selection of the convention and second the failure to nominate William G. McAdoo. We should not criticize anyone but ourselves.

The people of the Franklinton community are to be congratulated upon the splendid community fair they held the past week. The exhibits were exceedingly fine and the arrangement was superb. The whole setting was most excellent and creditable to all who entered into the spirit of the occasion and is bound to encourage a more wholesome spirit among the citizens of this community and a better appreciation of themselves and their neighbors.

The efforts of Supt. Perry, of the Public Welfare Department, to break up the practice of many parents in

the county keeping their children out of school for the purpose of commercializing their labor is to be commended. The law makes no provision whereby parents can keep their children from school to perform labor for any one but them, and when they begin hiring them out to others, that the parents may reap the harvest it is time to call a halt and give the children a chance for an education.

The question of a public Cotton yard for Louisburg has arisen again for the tenth time in the same number of years. It now looks as if the traffic problem is going to force the question to an issue. Since it has become both a town and county matter why not the town propose some joint action with the county to establish a public cotton yard. Of course there is opposition to it just the same as all other matters of real worth. However it looks to us that a public yard would be a great advantage to both buyer and seller. The latter could unload his cotton, put up his team and proceed to attend to his business until the buyers got to him, and the buyers could have regular hours to visit the yard and buy more cotton in that time than they can under the present system all day. It doesn't make much difference what any of us think about it, some remedy is going to have to be provided for the traffic jam on Main street which is also the State highway and we would suggest that all parties concerned should get together, and arrive at a satisfactory solution.

### ARMISTICE DAY—VETERANS

At 12:30 p. m. on the above day some noted speaker will address the Veterans and their friends from the Court House door. In case of bad weather the speaking will be in the Court House. Barbecue will be served immediately after speaking. Admission will be by tickets which you can get by calling on Major Boddie at Aycock Drug Store.
