Contributed Weekly By Miss Daisy Caldwell, Agent

Itinerary May 18th-23rd

Monday—Roberts Girls club.

Tuesday—Cedar Rock.

Wednesday—Seven Paths Girl's club, Pine Ridge Woman's club.

Thursday—Roberts Woman's club.

Friday—Gold Sand Girl's club, Seven Paths Woman's club.

Saturday—Office.

Mrs. McKimmon Coming

The greatest treat of the year for the club women of the county is to be on the 26th of this month when Mrs. Jane S. McKimmon, state home demonstration agent will address a joint meeting of the rural and town clubs of Franklin county. This will be at 3 o'clock in the afternoon at Louis-

burg. It is hoped that every community in the county will have a good representation present. Everybody is cordially invited.

Baby Clinic

The Louisburg Woman's Club extends a cordial invitation to all the women of the county to attend the baby clinic in Louisburg Tuesday, May 19th from 11 a. m. to 3 p. m. A thorough physical examination will be given free to as many babies as possible by Dr. Aldert S. Root, baby

specialist from Raleigh. At 3 o'clock Dr. Root will lecture on "The best diet for children under 12 years of age."

Dr. Root is recognized as one of the foremost baby specialists of the South and this is indeed a great opportunity for the mothers to secure expert advice on the care of young children.

Plans for Clothing School Changed

Plans for the two days that the clothing specialist, Miss Estabrook, will be in the county have had to be changed somewhat. At the suggestion of Miss Estabrook there will be no general meeting as at first announced. Instruction in clothing will be given each day to eight teams of two women each. The first day will be for women leaders of the girl's clubs and the second day to representatives of the women's clubs.

Moulton-Hayes

At the Moulton-Hayes club Friday afternoon interesting points were brought out on the summer's canning plans and on the place of home canned goods in that diet most conducive to health.

The treasurer read a report of funds raised for school improvement and the advisability of the club, Sunday school and school cooperating undertaking the purchase of a school piano was discussed.

Mrs. Gregg will be one of the representatives of the Moulton-Hayes club at the clothing club.

Wood Girl's Club

After the program at the Wood Girl's Club Wednesday morning work was done in sewing. The next meeting will be after school is out and will be an all morning meeting at the home of Leona Raynor.

Pilot Woman's Club

The summer's canning program was the subject of discussion at the Pilot Woman's Club Wednesday morning. The amount and kind of home canned goods necessary for the well planned meals for the year was brought out. Miss Caldwell gave a demonstration in testing fruit juice for pectin and in judging jelly. Mrs. Cone will be one of the Pilot club representatives at the Clothing school.

White Level Woman's Club

Testing fruit juice for pectin and judging jelly were the demonstrations given at the White Level Club meeting Thursday afternoon. Canning plans were discussed. White Level has made a reputation as a great canning community.

White Level GPT's Club

Thirteen were present at the Club meeting at the school house Monday, which was very good attendance for a vacation meeting. The afternoon was spent in sewing.

FUNERAL OF JAMES HALL WILLIAMSON

The funeral of James Hall Williamson, colored, son of the late John H. Williamson, whose untimely death occurred on his way to the Bronx hospital in New York city, after a fatal automobile accident, on May 3, took place last Friday afternoon at 4:00 o'clock from the local colored Presbyterian church, conducted by the Rev. J. A. Savage, D. D., Principal of the Albion Academy at Franklinton, assisted by the pastor, Rev. H. T. McFadden.

The floral tributes were beautiful and offering, reflecting the esteem in which the deceased was held both here, the place of his birth and in the metropolis where for nearly thirty-nine years he had made his home.

After the choir had rendered in beautiful melody, "Nearer My God To Thee," appropriate solos were rendered by Mrs. Ernie Green and Mrs. E. T. Thomas.

E. N. Dent, one of the oldest and most substantial of our colored citizens, traced the life of the deceased from his boyhood here, when he did odd jobs for him thru his career at Howard University where he received his education, down to the present time. Deceased owned valuable holdings in New York, consisting principally of stocks and bonds and life insurance.

Following acted as flower bearers: Misses Ridley, Osceola Lankford, and Louise Cooley, while the pall bearers were Walter M. Alston, Wesley H. Hawkins, Harry Dunston, Sam A. Harris, Calvin Yarboro, and Ulysses Allen.

The following sisters and brothers survive him: Mrs. Lula Kingalaw, Bluefield, W. V.; Carrie McAdams, Siler City, N. C.; Mary U. Twine, Thomasville, N. C.; Gertrude L. Davis, Louisburg; Bonnie Williamson, Washington, D. C.; Hattie Williamson, Louisburg; J. Henry Williamson, of the Navy Department, Washington, D. C.; Willie Williamson, N. Y. City; Raymond Williamson, Washington D. C.; Ned Williamson, Louisburg, and Pauline Williamson, New York. 5-15-11

TAKEN UP
One dark red milk cow, dry, extra large with horns hooked in. Owner can get same by paying for this advertisement and expenses.

W. A. BAILEY,
5-15-11 R 6, Louisburg, N. C.

Marry in haste and nine times out of ten nobody profits but the marriage license clerk and the parson.

FARMERS QUESTIONS

Involving Farm Problems Affecting Franklin County.

Answered by Cole Savage, County Agent

To find the most profitable fertilizers for cotton, corn, and tobacco in Franklin county 10 tests have been put in and 10 others planned with farmers in the rural communities within the past two weeks.

Those put in are:
Cotton fertilizer tests—Katesville, J. R. Jones; Pine Ridge, W. H. Tant; Hickory Rock, L. R. Southall; White Level, J. H. House; Epsom, J. D. Newman; Banks' Store, Mrs. Jim Mitchner; Cypress Creek, C. P. Harris.

Tobacco fertilizer test—for Franklin County, W. T. J. Eaton.
Improved cotton seed tests—Katesville, R. H. Jones; Pine Ridge, J. T. Mullen.

Those planned and soon to be put in are:
Corn fertilizer tests—Banks' Store, Felix Banks; Franklinton, Geo. L. Cooke; Katesville, Phil Tomlinson.

Cotton fertilizer test—Banks' Store, Dr. C. H. Banks.
Improved cotton seed tests—White Level, J. W. Bartholomew; Hickory Rock, M. C. Smith; Cypress Creek, Judge G. M. Beam.

Hay tests—Pine Ridge, T. E. Hinant; Epsom, J. D. Newman; Katesville, Smith Brothers.

The cotton fertilizer tests, four with each farmer, are made with 8-3-3, home-mixed 10-5-3 with nitrate of soda as the source of ammonia, home mixed 10-5-3 with cotton seed meal as the source of ammonia, and one plot with no fertilizer. All fertilizer in this test is distributed at the rate of 600 pounds per acre. The plots are one-tenth acre each in size which makes it easy to figure the yield per acre when the cotton from these plots is weighed next fall.

The corn fertilizer tests, four in number, are made with 8-3-3, home-mixed 12-4-0 with nitrate of soda as the source of ammonia, home-mixed 12-4-0 with cotton seed meal as the source of ammonia, and one plot with no fertilizer. The corn fertilizer is distributed at the rate of 400 pounds per acre, a top-dressing of 100 pounds nitrate of soda to be given all fertilizer plots when the corn is knee-high. These plots, as with cotton, are one-tenth acre each.

The tobacco fertilizer test is put on under the direct supervision of the State Tobacco Experiment Station at Oxford and details of it will be published soon.

In the improved cotton seed tests one plot is planted with highly bred, well selected, improved seed, and the other with crop seed of the farmer putting on the test. This test covers two plots of 1-10 a. ea.

In the hay tests a comparison between soy beans and cowpeas for hay will be made and the results accurately weighed and published next fall.

All these tests are being eagerly watched by Franklin County's more progressive farmers.

Three more nitrate of soda crushers have been reported as made since last week. They are: O. W. Ayscue, of Epsom, J. R. Underhill, 3 miles South of Louisburg, N. M. and H. H. Perry, 3 miles East of Louisburg. Those who have not reported please tell your farm agent about your soda crusher at your earliest convenience.

J. H. Parrish, 4 miles East of Louisburg, has lost about 150 hens from a contagious disease within the past few weeks. He sent one of the dead birds to the State Poultry Laboratories in Raleigh for examination and found that Fowl Typhoid is the disease which is playing havoc with his flock. Vaccination with fowl typhoid vaccine is the prevention for this disease. If your flock is dying consult your county agent at once. He will gladly help you.

From 10 rows in the garden, or 1-4 of an acre, Phil Tomlinson, of near Katesville, has sold \$80.00 worth of strawberries this season. He says he will get about \$10.00 worth more. Not a bad income from one corner of a farm garden.

The girl's colleges may not teach much, but ask any student and she'll tell you two and two make a bridge game.

THE BURDEN OF LOSS IS LIGHT

When Your Property Is Insured

Pay a small premium yourself and let the company pay a big loss when the fire occurs.

Fire comes when you least expect it, and generally when you are least prepared to sustain a loss. We write policies in the best American companies. That means prompt payment of losses.
