

of trust executed to me by John W. Alston and wife, Ortney R. Alston, and duly recorded in the office of Register of Deeds for Franklin County in book 234, page 436, default having been made in the payment of the notes therein secured and at the request of the holder of said notes and by order of re-sale made by the Clerk of the Court on account of an upset bid having been made, the undersigned will on

MONDAY, SEPTEMBER 7th, 1925 at or about the hour of noon, at the courthouse door in Louisburg, N. C., sell at public auction to the highest bidder for cash the following described real estate, to-wit:

Situate in the Town of Louisburg, N. C., adjoining the lands of the C. M. Cooke Estate, Emily Cooke and others, and bounded as follows: On the North by the lands belonging to the C. M. Cooke Estate; on the East by the lands of Emily Alston; on the South by the Halifax road; and on the West by the lands of Dr. D. T. Smithwick, containing three-fourths acres, more or less, and being the same lot or tract of land conveyed to John W. Alston by deed from Willie Jones, which is duly recorded in Franklin County

To Stop a Cough Quick
take **HAYES' HEALING HONEY**, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of **GROVES' O-PEN-TRATE SALVE** for Chest Colds, Head Colds and Croup is enclosed with every bottle of **HAYES' HEALING HONEY**. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Groves' O-Pen-Trate Salve through the pores of the skin soon stops a cough. Both remedies are packed in one carton and the cost of the combined treatment is 35c.
Just ask your druggist for **HAYES' HEALING HONEY**.

Health
Things You Should Know

by John Joseph Gaines, M. D.

Your Throat
Undoubtedly, in our struggle with the invisible enemies of mankind, we have been baffled by the invaders of the breathing-passages more than anywhere else. Here many of the deadliest germs attack. We have practically abolished typhoid; cholera is a thing of the past; small-pox is no more dreaded; diphtheria and scarlet fever are yielding; influenza, pneumonia and tuberculosis remain mysterious and un-conquered.

It is known that disease-germs may reside for years in a throat that appears healthy, and annoys its owner but little. From this locality they wander to more remote tissues; an overworked joint, an idle gall-bladder, or an irritable kidney is fertile soil for immigrants from a very modest throat-infection. Worst of all however, a diseased throat is more apt to infect the heart-muscle, especially in people past middle-age. I am safe in asserting that the majority of fatal heart diseases have their real origin in a perfectly curable throat infection, neglected!

Removal of tonsils is too often only a step in the right direction—merely removing the headquarters of the enemy. Millions of bacteria are left behind to continue depredations. The number of "poisoned hearts" from influenza-germs is appalling! It is in this field that an ounce of prevention is worth many pounds of cure. What better prevention than daily cleansing the upper air-passages with some harmless antiseptic? The invisible foe can be successfully combated, only when he is not deeply fortified. To neglect the throat is to court disaster.

**WHEN IS MAN OLD?
WASHING MACHINE PROGRESS.
\$1,000 FOR EACH OF US.
ROLLING THEM DOWN.**

WHEN is a man old?
A Civil War veteran of Illinois, aged 88, is told by the judge that a man 88 "has no business to get married."

A Pennsylvania man of ninety-one settles property on his children, then marries a woman of 45, who says her new husband is "old in years only."

Jacob Wettler, Swiss embroiderer, only seventy-four years old, shot himself, saying life wasn't worth while at that age.

"When he is forsaken, withered and shaken, what can an old man do but die?"

Some men are as old at fifty as anybody can be. Motke at ninety was younger than many of the junior officers that stood in stiff respect about him. A man is old when his mind stops working along new lines.

The people of America have about doubled their incomes in a few years. The cash that Americans earn, or receive from investments, rents, from inherited property, etc., is not far from ONE HUNDRED MILLION DOLLARS A YEAR, almost a thousand dollars for every man, woman, and child.

For every 100 homes in the United States there are 29 washing machines. That shows progress, and room for more progress.

The family without a washing-machine, unless the washing be "sent out," proves that some woman is condemned to needless slavery.

An electric washing machine and wringer, costing a few cents a day for current, makes of washing an amusement instead of hard work.

It makes it possible in a large family, with a busy mother, for the growing boys and girls to do the greater part of the week's washing and relieve the mother.

American ladies, it appeared, entertain Parisians by wearing their stockings rolled down, showing all of the knee and part of the leg-bare, below a short skirt.

Such women would represent the United States more usefully if some in front of American washing-tubs with their sleeves rolled up, instead of having their stockings rolled down in Paris.

But there is a hygienic value in bare knees. All Esquimaux women, even in coldest Arctic weather, arrange for an opening at about the knee to let the air in. If they didn't do that, they would die for lack of oxygen.

Weak fish will find it hard to survive in the automobile endurance contest. One big company announced another cut in price, yesterday, making the fourth cut in a year.

The highest engineering skill and business ability are devoted to giving the public high grade automobiles at the lowest prices. That's valuable work.

When will commercial genius show the same energy in cutting the price of food "delivered?"

A scientist says that the young people of today have become "motor car wise." By instinct they avoid automobiles and adapt themselves to traffic. Older people been unable to learn.

Even chickens and dogs have learned something. They stay out of the road and are killed less frequently than they once were.

It would be good news if the young people of the generation would be "whiskey wise" in addition to being motor car wise.

During the next few years there will be more young people killed by whiskey than old people killed by automobiles.

A plague of butterflies, causing motor engines to become overheated, by clogging the radiators, suggests a gruesome possibility.

If the insect tribes with their horrible fertility, should get out of control, they could fill the air, destroy all vegetation, starve, suffocate and devour the human race and all other animals.

Nature fortunately attends to these things. Even the insect plagues of Egypt sent to punish sin did not kill all Egyptians.
