

The BULL'S EYE

America is Safe with "Bull" Durham

A gang of Scientists left on a Boat for a year's cruise to study queer kind of Fish in the South Atlantic Ocean. They should have stayed here in New York and went to see and hear what I did the other day, a real Red Bolshevik meeting. They would have seen queer looking Fish there, Suckers, Eels, Flounders, Bullheads, and every Guy that got up was a big mouth Bass. They denounced everything in America, The Weather, The Constitution, White Gloves for Pall Bearers, Mah Jongg, Lower Taxes, Suspenders, Cross Word Puzzles, Shower Baths, League of Nations and Ice Cream Pies. After looking them all over I found what was the matter with them. There wasn't a one of them knew enough to roll his own. How are you going to improve on a Government if you don't know that much. Every man you see pouring "Bull" Durham into his paper, you can bet he is satisfied with America, because its the old right down to earth Americans that do it.

Will Rogers
P. S. There is going to be another piece in this paper soon. Look for it.

Automobiles from thirteen states and countries were seen in an hour on Highway No. 50 by a Franklin County motorist returning from Raleigh Tuesday. The one farthest from home was from San Diego, California. One was from the province of Quebec in Canada. The others came from Maine, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Virginia and South Carolina.

About Your Health

Things You Should Know

by John Joseph Gaines, M. D.

DISEASES OF THE KIDNEYS

Kidneys are remarkably free from sensory nerves, hence are not sensible to pain. If you have a backache therefore, do not insist that your "kidneys must be affected," and do not be alarmed if your neighbor tells you that you are getting Bright's Disease. The chief thing I wish my reader to remember is, that kidney diseases of serious nature may exist, without a trace of backache—ever. One thing I have observed, finding it true always, is this: The individual who is compelled to rise at night more than twice had better consult his physician about his kidneys. Most kidney diseases that I have met, have high blood pressures,—hence in all high blood pressure cases, the kidneys should be carefully looked after by a capable examiner.

One of the most painful affections known to man is "gravel" or renal calculus. But the offender is never in the kidney when pain is caused. The gravelly crystals form in the funnel-like cavity at the point where drainage starts from the kidney. If they are washed down this small canal, the rough concretions produce agonizing pain, requiring the most powerful agencies at our command to relieve it, and if complicated, even the surgeon may be needed to save life! Indolent or sedentary habits tend to produce stagnation always, and stone in the renal passages is a result of stagnation. Drinking plenty of wholesome water is always a preventative of stagnation in most of the channels of elimination, and is hence a potent factor in maintaining good health.

22	26	30	28	
14	20	10		

Puzzle No. 22
Easy to Memorize

A duel was fought in Texas by Alex Shott and John S. Nott. It is reported that Nott was shot and Shott was not.

No doubt it is better to be Shott than Nott.

There is a rumor, however, that Nott was not shot, though Shott admits he shot Nott, which suggests either that the shot Shott shot at Nott was not shot, or that Nott was shot notwithstanding.

It may appear when the trial comes on that the shot Shott shot shot Nott, or as accidents with fire arms are not uncommon, it is quite possible that the shot Shott shot Shott himself, when the whole affair would resolve itself into its original elements, and Shott would be shot, and Nott would be not.

We think, however, that the shot-Shott shot shot not Shott, but Nott, though it is still hard to be certain who was shot and who was not.
