TAR DROPS

Services as follows are announced by Rev. J. D. Miller for St. Paul's church next Sunday: Holy Communion at 11 a. m., union services in college grove at night.

The friends and acquaintances in Louisburg of Mr. M. M. Scales, will be sad to know of his death which occurred almost instantly on Thursday morning July 8th, being the results of a severe stroke of paralysis.

AT CAMP BALANCE ROCK

The girls camp under the direction of the Y. M. C. A. at Balance Rock this county is in progress now this being the second week of the outing for the girls. Monday morning of this week Miss Louise Joyner, assistant scout captain for the girl scouts of Louisburg, left for camp with the scouts. Reports from camp indicate that they are having a pleasant camp.

A swimming class was organized the first of the week and those who do not swim are being given instructions in swimming. Reports from camp are to the effect that several of the Louisburg girls as well as others, have learned to swim already. Among these are Patricia Holden, Margaret Holden, Edith Kemp and Lula Mae Timberlake.

District Secretary, W. A. Welch, states that to date seventy-five boys and girls have registered at camp this season already. Next week the Franklin County Agricultural clubs will come to camp under the supervision of the Home Demonstration agent Miss Caldwell and Farm Demonstration Agent A. H. Harris, both of Louisburg.

Last reports as to the number who would attend this camp showed that something like fifty girls and twelve boys had already registered. Plans have been made to accommodate all who attend. The farmers of Franklin county are always welcome at camp but next week will be Franklin county week at camp and the entire citizenship is invited to come at will.

A number of church picnics are being planned for the Y. M. C. A. camp this summer. In this connection W. A. Welch, who is directing the camp, invites any Sunday school or church desiring a pleasant place for a picnic to consider Balance Rock. The facilities of camp will be placed at the disposal of those wanting to have a picnic there. No charges are made for swimming or boating and all desiring to do so are invited out.

This Week

By Arthur Brisbane MR. EASTMAN'S LION. HE'LL CATCH FISH. DAVID DANCED, PERHAPS. \$1,000 AN HOUR?

George Eastman, of Rochester, hunting big game in Africa, has killed his first lion, eight feet long. Doubtless Mr. Eastman pushed the trigger, and the lion did the rest.

How would you make that lion understand how a man could travel from Rochester, across the Atlantic Ocean, down to the lion country, just to shoot him? If it were an athletic lion it would say, "You are talking nonsense. There is no such thing as George Eastman. All is accident."

President Coolidge, on his vacation, will fish in a lake where, men tell him, there are no fish. For President Coolidge no such body of water exists. If he fishes, he will catch fish.

And if fish are scarce, he will have the more time to think. Taking fish off the hook is an annoying interruption of thought. The President must do hard thinking with wheat and cotton farmers, North and South, fighting each other and nothing "done for the farmer."

The President will not fish with fancy "flies," but with genuine worms, such as he used to dig up in Vermont or pull out of their ground with his fingers after a rain years ago.

Congressmen are going home to rest and learn what their constituents think.

Like husbands going home late, they are thinking up a convincing story.

They have cut more than \$350,000,000 off the national tax load. That's GOOD.

They tried their best to make this country join the World Court, and become subject to its decisions. That's BAD, and more Senators will know it soon and stay home.

Congress collected some of the money that Europe owes us. That's GOOD. It is as well we did not try to collect all, we might not have got anything.

Congress appropriated \$150,000,000 to be spent in five years on aviation. That SOUNDS all right, but there ISN'T any American aviation worth speaking of, and that's BAD.

Dancing masters "bar the Charleston," but won't succeed in driving out that wild dance. It is probably like that David danced before the Ark. It enables the dancer to express frenzied emotions for which words can't be found.

Dancing originally was all wild, as among American Indians or African savages. Primitive man desiring to "express himself," danced himself into exhaustion.

Then came brief control, stately minuet, waltz, jerky polka, quadrille. There is no personality or expression in them.

The Charleston, allowing youth to throw up both legs and arms at once, will stay until our craving for "self expression" shall have been satisfied.

Roy D. Finch, New York's able State Engineer, shows that neglect to harness the St. Lawrence costs New York State 10,000,000 tons of coal every year. Waste does not disturb the American people.

Congress sits close to the Potomac's rushing rapids, every day wasting power enough to light all Government buildings and half of Washington.

In a sixty-mile race yesterday, aeroplanes beat carrier pigeons by three minutes. One hundred years ago, stage coaches raced against steam locomotives, and locomotives won by a narrow margin. The margin is now wider.

Those living will see aeroplanes flying across this earth — 25,000 miles in 48 hours.

A Chicago lady, in a hurry to get home, commandeered a Pennsylvania Railroad special train, just as Kubla Khan decreed his stately pleasure. It cost some \$7,087.50. The lady, paying for 125 tickets at \$56.80 each, saved six hours. How many are there in the world whose time is worth \$1,000 an hour. Many, fortunately, but most of them haven't got \$1,000 an hour.

YOUR BIRTHDAY

July 15th-24th If your birthday is this week you have a great amount of charm and personality. You make friends quickly wherever you go, and are very well liked by all. You are an excellent entertainer, fine conversationalist, and excel in repartee. You are fearless, impulsive, and determined. You are very independent, and resent being commanded. While you learn

very quickly, you are not a good student but your memory is accurate and lasting. You are generous to an extreme, and are often imposed upon by others. Loyalty to your friends is a most marked characteristic of persons born during these dates. No trouble or disgrace is sufficient to cause them to forsake those to whom they have given their friendship.

You are very ambitious and have talent in many directions. Both men and women are gifted in art poetry, dramatics, and are far better fitted for mental labor rather than manual labor. Men often become chemists, physicians, ministers, lawyers, orators and actors. The women born during these dates are excellent home makers, but also excel in decorating, acting, public speaking and teaching.
