"HOW MUCH IS YOUR FEE, DOCTOR?"

A Question So Often Asked; This Is the Answer Given By a Local Physician

"How much is this operation going to cost me, Doctor?" "Well, I am going to charge you, for giving you the skill I have worked 15 years to acquire, and for the knowledge which I have studied years and spent thousands of dollars to gain, as well as for some half dozen hours of my time, used in examining, operating and dressing,—for this I am going to charge you the same amount the automobile dealer charged you for taking you to ride in his demonstrator, and talking you into buying one of his cars. He actually spent less time on you than I spent and certainly spent less than I on his education and training. As to taking responsibility, he took none, he had nothing to lose except his time and a small portion of his overhead expenses. I had your life in my hands, and there were moments, during the operation, when that responsibility weighed heavily. Do you consider that he rendered you a greater service than I? It certainly cost him less of his vital force to render it. You feel that I am taking great advantage of you when I charge you \$200 for putting your body in the best repair of which it is capable; but you are pleased and happy to pay him \$200 for persuading you to buy his brand of car. I realize that it seems to you that in case you are paying for personal service, which gives you no pleasure, and in the other case for merchandise, for goods you can actually see and feel which do give you pleasure. But you should also look at it from the viewpoint of the motor car dealer and myself.

"Similarly, for the care I give your wife throughout her pregnancy—for the numerous examinations and for the encouragement and heartening I try to give her for the disturbance of my rest in the dead of the night, for the hours of waiting, with eyes heavy for the want of sleep, for taking the responsibility of doing the very best possible for mother and babe and for watching and guiding them through the first ten days of the babe's life; for all of this, I am going to charge you the same amount as the piano dealer who talked with you for an hour on two or three occasions, very courteously explained to you the superior points of his piano and finally drew up the contract and made you the sale. You never thought he was asking too much of you, because you never really considered him as asking you anything for his service. You were paying \$400 for piano and it did not seem to you unreasonable. If the salesman had charged you even \$10 for his personal services in showing you the pianos, you would have been indignant. But with the impersonal thing, the piano, and its value as merchandise and not as service, you feel no resentment nor injustice.

"You simply do not stop to analyze. You do not realize that you are paying anything for personal service when you buy merchandise. Besides that, when you pay for medical service, you are usually 'paying for a dead horse.' You have already had the relief from pain or from the anxiety over sickness. With your car you are paying for pleasure which you are going to enjoy or which you are still enjoying. If you were obliged to pay your doctor bill before you got relief from discomfort, you would pay more eagerly and willingly.

"For all the calls I made at your house when you had the flu; for giving my most careful thought as to the best way of managing your illness; for exposing myself to possible contagion of your disease; for the five or six hours of time I spent calling on you and going to and from your home, and for the various supplies I expended in treating you, I am going to charge you the amount which you put into the radio dealer's 'profit account' to compensate him for having placed his receiving set in your living room. Remember, I am not talking about the cost of the set, but what you paid him to induce you to choose it.

Am I fair? Or am I extortioner? For my services to the community year in and year out I am not demanding any more than the head of your bank, nor than your successful realtors or your merchants—often less, I usually work more hours than they do; and I never consider my own comfort.

"Do you really think that I am a 'grafter'?"

My Ford
The Ford is my chariot,
It shall not want;
It maketh me lie down in wet places;
It destroyeth my soul,
It leadeth me into the deep waters.
It leadeth me into the paths of ridicule
for its name's sake,
It prepareth a break down for me in
the presence of mine enemies.
I will fear no evil when it is with me;
its rods and its shafts discomforts
me;
It anointeth my face with oil;
Its water holleth over;
Surely to goodness, if Lizzie follow
me all the days of my life,
I shall dwell in the house of the Nuts
forever.

COACH OR COUPE
\$825
BODIES BY FISHER

PONTIAC SIX

CHIEF OF

THE SIXES

The Pontiac Six won instant acceptance—first as a quality car and then as a car at a price made possible by the gigantic resources and purchasing power at the disposal of a division of General Motors. Entirely disregarding price, the Pontiac Six would be an outstanding car by the grace of its Fisher body and the smartness of its Duco

finish, by the size, power, and flexibility of its engine, by the exceptional ruggedness and "heft" of every unit, from the dashing radiator cap to the tail light—

—but a price of \$825 literally throws this high-quality Six into bold and impressive relief against the entire industry.

Oakland Six, Companion to the Pontiac Six—\$1025 to \$1295. All prices at factory. Easy to pay on the liberal General Motors Time Payment Plan.
