**About Your Health**

Things You Should Know

by John Joseph Gaines, M. D.

**Vegetable Vs. Mineral Medicines**

Most people are ready to buy medicine if it is labeled "purely vegetable." They imagine they are getting something like string beans and lettuce. I suppose—perfectly harmless. We should not forget that many of the deadliest poisons are vegetable. Opium is a vegetable substance from the juice of the poppy. Strychnine is purely vegetable. Belladonna and all its derivatives are deadly if taken in over-dose. Cocaine is another powerful poison, that is also capable of producing a habit. I know of no mineral medicine that is more dangerous.

There are mineral agents that we cannot do without, among the leaders, Iron and Calcium. Manganese is extremely valuable in impoverished blood conditions. Mercury is a poison—deadly in some of its forms, but not more so than acetone or alcohol.

The facts are, that medicines of all kinds are good servants but bad masters. Even our food is dangerous, if not taken with a high degree of intelligence. The active poisons are invaluable in the hands of the educated physician. When the inexperienced patient sets his judgment against that of the trained medical man, something unfavorable is extremely likely to happen.

Aloes is a vegetable medicine, that forms an ingredient of most remedies for that universal complaint, constipation. The patient may slowly medicate himself into the hands of the rectal specialist, if he buys medicine on his own judgment, or by that of the fellow who has the nostrum to sell. The medicine should be taken judiciously, or without a thorough knowledge of its effects—a word to the wise is sufficient.

**To Cure a Cold in One Day**

Take LAXATIVE BROMO QUININE (Tablets). It stops the Cough and Headache and works off the Cold. E. W. GROVE'S signature on each box. 50c.

Granville County will soon be a leading swine growing section according to the interest the farmers are taking in feeding demonstrations. Twenty pure bred Berkshire gilts were recently distributed to club boys by the county agent.

J. H. Terry of Durham County produced 201 bushels of purple straw wheat on five acres of land. From 25 acres planted to the crop, Mr. Terry harvested 644 bushels. The entire yield was weighed.

Boll weevils are appearing in cotton fields in the southeastern section of the State. Because of the poor outlook for the crop, however, many farmers are discouraged from buying calcium arsenate.

Tom Tarheel says the best day's work done on his farm recently was when the family went swimming and then enjoyed a picnic supper in the nearby woods.

**JANE WINTON**  
*wears it*

A sport costume that is smart in the accepted boyish manner—yet femininely graceful in every line and detail. The Ensign Navy jacket is of blue broadcloth, and is worn with a French yellow or white skirt. The yellow blazer felt sport hat, swaggar stick, and patent leather sport pumps, with blonde calf trimming, complete this natty outfit.
