TAR DROPS

Hot weather returned this week and crops are booming.

The Government thermometer registered a temperature in Louisburg Wednesday of even 100.

Quite a number of visitors are going out to Camp Balance Rock each day.

The Cotton Cooperative Association is showing a series of moving pictures in the county.

Work is progressing nicely on the Franklin County building at Louisburg College.

This is the season for camping parties and many of our people are enjoying an outing.

Attention is called to the change of advertisement of the Louisburg repair shop in this issue.

There will be no preaching at Shiloh the fourth Sunday, July 25th, due to the fact that the pastor will be away in revival work.

His many friends here deeply sympathize with Mr. Cary Howard in the death of his sister which occurred near Danville, Va., Tuesday in an automobile accident.

Rector J. D. Miller, of St. Paul's Episcopal church announces services for next Sunday as follows: Sunday School at 10 a. m., Morning Prayer at 11 a. m., Evening service in College grove at 8 p. m.

Roaring through the storm, thundering through the darkness, came the Limited Mail, Tumbling, rumbling speeding down the hillside came tons of dirt, a landslide that threatened the train and its passengers. Don't miss this dramatic moment in "The Limited Mail," the Warner Bros. classic of the screen, at the Winner Theatre Monday.

SANDY CREEK ITEMS

Sandy Creek is getting lively now as the revival meeting starts Sunday, and all are expecting a good time.

Well, there is but little news this week, but as the old fellow said every little bit helps.

Misses Eleanor Gilliam, Magnolia Burnette, Molly Brewer and Lola Williams, Messrs. Macy Brewer, Lewis and Eugene Williams, Lewis Gilliam, and Eugene Williams, Lewis Gilliam, Edwin Gupton, Cartha Mason and Edwin Davis were pleasant callers at Mr. Ollie Dorsey Saturday night. Mr. Lewis Williams brought his talking machine and Mr. Macy Brewer his banjo and had music. All reported a good time.

Miss Leslie Gupton spent Saturday night with Miss Lena House.

Messrs. Eugene Burnette and Willie Gupton were pleasant callers at Mr. R. S. House's Saturday night.

A large number of Sandy Creek folks attended the convention at Centerville Sunday.

Miss Nell Joyner spent Sunday afternoon with Miss Julia Brewer.

Messrs. Thurston Gilliam and Lonnie Burnette took dinner with Mr. Macy Brewer Sunday.

Mr. Lewis Gilliam took dinner with Mr. Harvey Leonard Sunday.

Messrs. Otho Gilliam, Arthur Dickerson and Wilbur Benton took dinner with Mr. W. H. Gupton Sunday.

Messrs. Otho Thurston and Lewis Gilliam, Henry and Bryant Leonard, Arthur and Wilton Dickerson, Hugh Wood, Macy Brewer and Wilbur Benton, took a pleasant swim in the creek Sunday afternoon.

Mr. Ed Aycock and wife, Mr. D. C. Mason and wife, Mr. Sid Joyner and wife, Mr. Edwin Harper and Miss Betty Harper visited Mr. and Mrs. C. C. Brewer last Friday night.

Miss Nona Burnette called to see Miss Rachel Allen Sunday afternoon.

Miss Irene House spent Sunday afternoon with Miss Dalma Aycock. Messrs. Cartha Mason and Macy Brewer motored over to Mr. Ed Aycock's Friday night.

Well, as that is all the news we will see you next week in the "funny paper."

"QUIT DOCK."

CAN YOU BEAT IT "Could I see the crystal gazer?" "No, she's not in. She's over at the palmist's getting her hand read."

Chauncey Depew

Few men have enjoyed the public favor and esteem that have been showered upon Chauncey Depew, famous after dinner speaker. The former senator and railroad president has all thru his eventful life been America's greatest exponent of optimism.

About Your Health

Things You Should Know

by John Joseph Quinn, M.D.

ABSORPTION & DIGESTION

The human body is nourished by the two processes, digestion and absorption; in the former, the food is saturated with digestive fluids in the stomach, and its particles macerated and rendered fit for use in the tissues that require nourishment. The digestive process completed, the substances are passed on into the intestine, where absorption deposits them in the blood-vessels through suitable channels; absorption is automatic and indiscriminate; if poisons reach the absorbents, they are taken up with quite as much avidity as if they were harmless, and here is where mischief starts.

Most all of the fluid portion of food is absorbed, whether it has been digested or not. If not properly prepared in the stomach, it is unloaded into the circulation in a form that cannot be taken up by tissues requiring nutrition, and the patient fails to understand how he eats so much, yet feels bad all the time, and loses weight. The problem is with the digestive process which goes, or should go on in the stomach.

When the body is tired at the end of the day, the digestive processes are slowed down as well. A heavy meal is thrown into the stomach, at an hour when its efficiency is lowest. Only a fraction of the meal is digested—yet it is all absorbed! Is it any wonder that the patient awakens with "that tired feeling" and experiences loss of vitality with no desire for breakfast, and with an unfitness that is no less than a warning of danger. Breakfast should be a good, substantial meal; noon-dinner the same; and at evening, take the minimum requirement. This is the plan of the oldest and most vigorous people with whom I have come in contact.

Next Week: "HEART DISEASE."

ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of R. D. Pinnell, deceased, late of Franklin County, North Carolina, this is to notify all persons having claims against the estate of the said deceased, to exhibit them to the undersigned at her home, Louisburg, N. C., R. F. D. No. 5, on or before 12 o'clock noon, August 1st, 1927, or this notice will be plead in bar of their recovery. All persons indebted to the said estate will please make immediate payment.

This July 20, 1926. LAVENIA PINNELL, Administratrix of the estate of R. D. Pinnell, deceased.

OUR SUN A CANNON APATHETIC CITIZENS ROCKEFELLER BUILDS WE ARE VERY RICH

Professor Snyder of the Philadelphia Observatory says the earth was shot into space by our sun, a sort of cosmic cannon.

All "rotating suns," says he, thus shoot out planets and build up solar systems.

It seems frightfully gigantic to us, but a hen laying an egg would seem just as impressive to a microbe.

It seems reasonable that suns, like hens, should lay eggs, thus creating new organisms. Nature works along the same paths in big and little things.

John Hays Hammond says "the citizens are apathetic," indifferent to public questions—and they are.

He wants a civic campaign to do away with public apathy. That won't work.

If you want the public interest, you must make politics and public questions INTERESTING.

The other day in an American community above the average in intelligence, many citizens went to polls to vote on a dog ordinance and returned without taking the trouble to vote, at the same primaries, for members of Congress.

Ninety per cent of Americans, unless you arouse them with religious or racial antipathy, or with the high price of coal, feel that government is somebody else's business.

John D. Rockefeller, Jr., invests in decent homes for working people at reasonable rents.

Mr. Rockefeller's intention is to avoid charity, demonstrating that dwellings can be constructed on a big scale, with every comfort, including playgrounds for children and private parks attached to the

buildings, bathrooms, resident doctor, etc., within modern prices, about \$9 per room per month.

The thing will be done on a small scale at first, sufficient for a few hundred families. Success might lead to the investment of hundreds of millions in such enterprises and enable families of small means to live in comfortable, healthful apartments at a rent no greater than has been charged by landlords in the slums. The plan won't please slum landlords.

The President, in a thoughtful speech on the budget, says: "Uncle Sam is rich, that's true. We have actually \$390,000,000 more than we need for 1926. But that is no excuse for squandering. We must be MORE economical, cut down expenses every year."

Another cut of \$836,193,888 reduces the public debt to nineteen billion six hundred and eighty millions of dollars.

If necessary, Uncle Sam could pay all that debt by using one-third of the national income for ONE year.

We are rich, but, as the President says, that is no excuse for waste.

A magnificent new electric locomotive, the world's largest and most powerful, weighs 283,350 pounds, is sixty-five feet long, driven by six motors, with 4,500 total horsepower.

One man can handle this locomotive that will pull an express train with ease at more than 100 miles an hour.

Will it run between the Atlantic and the Pacific cutting the time to two-days? Unfortunately, it will run in Switzerland, where government owns railroads and seems to do well, in spite of our theory that government ownership cannot succeed. Perhaps the Swiss are abler than we are, perhaps more honest, perhaps both.

Dr. Butler says, "The world out-grew Communism 2,500 years ago, and Socialism in the Sixteenth century."

The world has never really TRIED Socialism or Communism, and never will. When socialistic and communistic ideas are tried out we give them other names.

A great public park, or magnificent public school, paid for by taxes and free to rich and poor, represents both communism and socialism. But we call such socialism "intelligent government."

Sudan grass as a late forage crop has been planted by many North Carolina farmers during July.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.
