WORDS FROM THE LIPS OF GREAT MEN

"Employment gives health, sobriety and morals."—Daniel Webster.

"Be courteous to all, but intimate with few."—George Washington.

Louisburg Tobacco Market opens Tuesday, September 21st.

Louisburg needs a pay roll. The fall and winter is the time to build one for the next summer.

"The Growers Interest First" should be adopted as a motto for the Louisburg cotton and tobacco markets.

It has been reported that many stocks of goods in Franklin county has been given in for taxation at from \$1000.00 to \$6,000.00 when the apparent value was from \$10,000.00 to \$50,000.00 and much other personal property listed at like values.

THE WRONG ATTITUDE

The following paragraph is quoted from the article from Wadesboro in Sunday's News and Observer relative to the meeting to consider recommending the dissolution of the Cotton Cooperative Association:

sociation say, regardless of its effect upon him financially or otherwise and he should have nothing to say to the contrary without being ridiculed, or told "it would have no effect."

The settlement the past year has been accepted by a large number of the members and business men to indicate the thorough inability of the association under its present policies to function in the interest of its members.

DELAY IS DENIAL

When the barons met at Runnemed, they declared that justice should neither be denied nor delayed. They knew that often delay was denial. In litigation, lawyers who have a weak case often win by securing continuances when they would lose on the merits.

Right your are Brother and we hope some man in North Carolina who has the authority will be big enough to bring about the needed remedy at once.

are many homes that contain numerous duplications of books because of the fancy of the practice, cannot be used over again in the same grade in the process of handing down from one child to another.

Lets get a correction in the price. And lets get a correction in the practice also and lift both burdens from the parents and children of the State.

SUCCESSFUL FARMING REQUIRES BUSINESS METHODS

The following are selected thoughts from an address delivered by Mr. Frank Parker, State Agricultural Statistician, before the State Association of County Commissioners, Morehead City, N. C., August 12th, concerning the State Farm Census (required by law):

"The farmer of today, just as the merchant of a few years ago and the manufacturer before that, is confronted by conditions that mean he cannot make his products net him a profit. By a profit it meant a net profit in the way that other business men figure profits.

"The first of these is becoming realized in a limited way through the Farm Census made through the tax lists by the farm owners. While this is but the beginning, it is the big first step which our farmers should follow up in a more personal and extensive way.

"Begun in 1918, the Farm Census has since grown in favor, completeness and dependability. The greatest weakness is the collective machinery—the listers themselves. They dislike this part of their listing duties and many of them use every excuse to "get by" with it.

"The farmers are due this much aid from the county funds, especially in view of the State taking care of the other half of the expense. Stingy and weak methods will fall in this work just as it has proved extravagant intax listing.

ROSEN RYE UNSUITED TO NORTH CAROLINA

Raleigh, Aug. 16.—Farmers who plan to grow a crop of rye either alone or in mixtures this winter should remember that Rosen rye is not suited to North Carolina conditions.

"This variety of rye seems to be an excellent crop for some of the northern states but it is not suited to North Carolina," says E. C. Blair, extension agronomist at State College. "Several years ago this variety was given a fair trial on the Experiment Station farm near Statesville. Its yield was five bushels per acre. The Abruzzi rye planted right beside it on the same day made 19 bushels."

"This year," says Mr. Blair, "a field of Rosen rye in Bladen county ripened about July 15 which was more than a month after the Abruzzi rye had been harvested. The worst features of this Rosen rye are that it is very late, it never makes satisfactory growth, it is used as an adulterant in Abruzzi rye and many growers are attracted to it because the seed are cheap."

Abruzzi rye may be higher in price but it is cheaper in the end and for best and most economical results in growing a rye crop this winter, Abruzzi rye, only should be grown.

Three cars of lime has been ordered cooperatively by farmers of Henderson county.

The honeymoon is over when he begins to complain about the cooking.

Oakland leads again with the Rubber-Silenced Chassis

Oakland has pioneered many outstanding motor car improvements, including Duco Finish, interchangeable bronze-backed bearings and the Harmonic Balancer, but none more vital and valuable than the newest Oakland achievement—the Rubber-Silenced Chassis.
